

LSEG WORKSPACE ADD-INS SYSTEM REQUIREMENTS

Access to LSEG® data and tools is provided through either of the following separately installed add-ins. These tools provide an additional menu ribbon in certain Microsoft® Office apps, where:

- **Workspace**
This add-in is the core product, which has a comprehensive set of capabilities. This add-in is the recommended add-in for most users.
- **Workspace Lite**
This add-in provides basic capabilities and is typically recommended for macOS and web browser-based environments due to its functional limitations.

Additional information

For more detailed information regarding:

- Microsoft 365/Office version requirements, browser compatibility, and tools supported by each add-in, refer to this document.
- Prerequisites, installation, and deployment instructions for the required add-in, refer to:
 - the [Workspace Add-Ins - Workspace Installation Guide](#), or
 - the [Workspace Add-Ins – Workspace Lite Installation Guide](#).

Workspace

The **Workspace** add-in is installed as part of the LSEG Workspace desktop package. The ribbon for this add-in contains the full list of Web-based and COM options.

Minimum requirements

	Software version	Build
Microsoft 365	2208	15601.20230
Microsoft Office 2021 Retail Perpetual	2208	15601.20230

Workspace Lite

The **Workspace Lite** add-in is an app found on the Microsoft AppStore®. This ribbon contains Web-based capabilities only.

Minimum requirements

	Software version	Build
Microsoft 365	2208	15601.20230
Microsoft 365 for Mac	16.67	--
Microsoft Office 2021 Retail Perpetual	2208	15601.20230

Browser versions

The Web-based Workspace Lite app runs in online versions of Microsoft Excel® and Microsoft PowerPoint®, using the latest supported version(s) of the browsers listed below:

- Microsoft Edge
- Google Chrome™
- Apple® Safari®

Add-in	Workspace		Workspace Lite
	Microsoft 365, Office 2021 Retail Perpetual	Office LTSC 2021, Office 2019, Office 2016	Microsoft 365
