Environmental, Social and Governance (ESG)

LSEG recognises the increasingly critical importance of transparent, accurate and comparable ESG data for the financial industry. We offer one of the most comprehensive ESG databases in the industry, with data on over **12,000 public and private companies**, both active and inactive, across **76 countries**. We report on more than **600 different ESG metrics**, including scores and grades with history going back to 2002.

Why contribute?

- Support the global financial community to easily integrate ESG factors into portfolio analysis, equity research, screening and quantitative analysis
- Ensure that your firm is recognised for contributing positively towards sustainable development and meeting socially responsible criteria
- Measure your performance across each of the UN Sustainable Development Goals and sub-metrics
- Grow your business by contributing and interacting with **400,000+** professionals in real-time
- Review and edit the historical ESG data that is already available for your company
- Gain competitive advantage by ensuring the investment world has access to the most timely ESG data on your company
- Meet regulatory requirements by submitting data relating to the Task Force on Climate-Related Financial Disclosure (TCFD) regulation. The Contributor Tool then allows you to generate a report to publish or share with regulators

## Estimates

LSEG I/B/E/S Estimates is the industry standard for analyst detail, consensus and aggregates data, company guidance data and advanced analytics. Founded in 1976, I/B/E/S gathers and compiles the different estimates made by stock analysts on the future earnings for publicly traded companies. Our estimates data is shown at the company level and screened with the most rigorous quality control methods, across **21,000 active companies** in **90 countries**, and sourced from over **16,000 analysts**.

## Why contribute?

- You will be joining more than **800 firms** that contribute data to I/B/E/S, from the largest global houses to regional and local brokers, with US data back to 1976 and international data back to 1987
- Receive email alerts regarding stopped and excluded estimates
- View and compare analyst estimates to the LSEG mean for all measures for all companies under coverage
- Verify recommendations, target prices and estimates on the LSEG platform, including any estimate exclusions
- Easily submit data correction requests directly to the LSEG D&A team

Officers and Directors

The database covers over **2 million unique individuals** representing **2.7 million officer and director positions**, and **20 years of employment and compensation histories**. Join **50,000 public and 125,000 private companies** by contributing your details to one of the most comprehensive databases of public company executives and directors in the world. Our database is the source for the market to:

- Identify key decision makers in an organisation
- Research key linkages and evaluate the strength of a management team
- Conduct due diligence on a person as part of the research process
- Monitor personnel changes in a company or industry

Why contribute?

- Manage your firm’s officers and director’s data that is then disseminated to institutional investment firms, investors, corporations, universities, and research firms across our suite of products and partner’s products (i.e. Financial Times)
- Ensure your company has their most up to date information available to the market
- Make dynamic company changes available to market when they happen vs. relying on public filings
- Gain market exposure by being part of this extensive database

Data elements include names, full title history, biographies, education, corporate affiliations, committees served and compensation, presenting a complete view of an individual.

## Sell-side Research

Join the **1,300 sell-side and independent research firms** actively servicing their clients by contributing research and estimates data to LSEG D&A via our market-leading real-time and embargoed research collections. Contributed research documents cover equities, fixed income, economics, ESG, and commodities, and our broker-contributed earnings estimates and KPI content cover **22,000 listed companies** worldwide.

## Why contribute?

- Entitle your clients to access your research in real-time from a universe of over **60,000 buy-side professionals** in **13,000 firms** and **10,000 corporations** worldwide
- Embargoed research distribution allows you to reach more than **2,000 investment banking, consulting and law firms, and corporations** globally
- Gain recognition for equities analyst earnings estimates and recommendation performance via StarMine ratings/awards programmes

Putting your research into your clients’ workflow is important if you want to get your ideas across. LSEG Data & Analytics provides the perfect mechanism for you to get your research right there in front of the clients that matter to you most.
