

Unlock your end-to-end Private Markets data platform

Step into tomorrow's financial ecosystem with LSEG Workspace private markets add-on

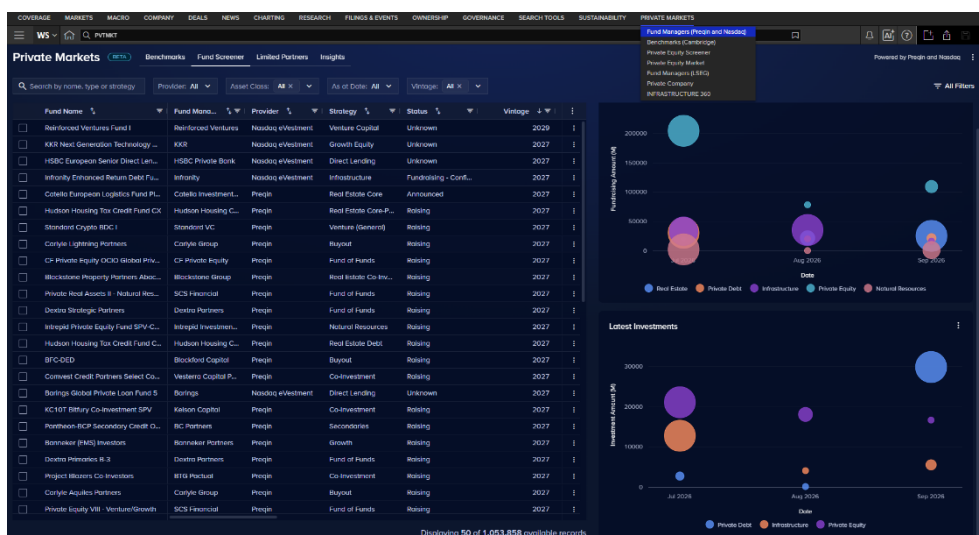

Bring private and public markets together in one connected workflow. LSEG Workspace combines private-company fundamentals, deals, broker research, macroeconomic and sector intelligence, public-market data and trusted news with premium private-markets content from Preqin, Nasdaq eVestment and other leading providers. By mapping and standardising complementary sources, LSEG helps users connect funds, managers, investors, companies and deals, compare private-market opportunities with public-market context, and support workflows spanning fundraising, sourcing, due diligence, fund screening and performance benchmarking.

Discover enhanced private markets data and intelligence

The private markets add-on helps users to identify, compare and monitor opportunities enabling more consistent analysis leading to better-informed decisions.

- **Expanded fund universe** - screen private funds across Nasdaq eVestment and Preqin datasets, now including Evergreen Funds.
- **Custom fund aggregation** - create and save custom peer groups using funds from multiple sources, with comparisons across common vintages.
- **Enhanced benchmarking** – compare fund performance with relevant FTSE Russell public market indices and FTSE Russell StepStone private market indices.
- **Deeper market insights** - analyse fundraising, investments, exits, LP commitments and performance, enriched with private credit intelligence research from LPC and Octus.
- **Explore Limited Partner Intelligence** - research investors, fund managers and service providers with extensive profiles and relationship data.
- **Fundraising and insights** – explore capital flows across markets, compare fundraising trends by asset class and geography, and stay informed on new fund launches and investor commitments.
- **Top deals & news** – monitor deal activity and stay ahead of market developments with AI-powered news and insights.

Elevate your private markets insight with LSEG Workspace

Find out more about LSEG's broader private markets offering

LSEG sourced Private Market data offering includes comprehensive global coverage of private companies, private equity/venture capital, private real estate, infrastructure, deals, debt capital markets and private credit, layered with industry-leading news from our LSEG generated insights – IFR, PFI and LPC editorial assets. Covering a range of asset classes, our Private Market data features detailed and hard-to-find information, including structured and unstructured content. A combination of proprietary in-house collections as well as leading third-party providers are brought together into a single cohesive offering. The data is standardised to enable consistency and comparability – delivering a holistic, high-quality and actionable view of private markets across various stages and use cases.

Deals (Mergers & Acquisitions) data

History dating back to 1970, capturing 1.6 million+ global transactions, including 1.3 million with private company involvement and over 313,000 deals backed by financial sponsors.

Debt Capital Markets data

Since 1970, 1.3 million total bond deals with 260,000+ private company involvement have been curated as part of our Debt Capital Markets data estate.

Private Company data

Coverage includes 27.5 million global private companies, with 12.3 million companies providing full financials. Sourced through a powerful combination of proprietary inhouse collections and trusted third-party providers, our Private Company datasets are standardised for consistency, comparability and quality. This ensures a clear, actionable view of private companies – whether you're evaluating investment opportunities, conducting due diligence, or tracking market trends.

Private Credit data, news and analysis

LSEG loans coverage goes back to 1992 and covers 656,000+ global loan instruments, 178 active public and private BDCs and 12,000+ direct lender loan assets. This is supplemented by editorial coverage running at 900+ news stories and features per month, as well as weekly and daily newsletters which include proprietary loan analysis and market insight. Navigate private credit markets with trusted LPC news, data and analytics. Explore direct lending activity, benchmark deals and lenders, analyse underlying BDC portfolios and monitor evolving market trends to uncover opportunities, assess risk and make more informed investment decisions.

Private Equity data

50+ years of history capturing 45,000+ firms, 101,000+ funds, 251,000+ PE/VC-backed companies, 580,000+ PE/VC-backed investments and 55,000+ PE/VC-backed exits.

Infrastructure data

Since 1990, 208,000+ projects including 88,000+ with private company involvement and 5,900+ with financial sponsors. PFI News coverage since 1992 with a 25 year-archive and 1,000+ articles per month.

Equity Capital Markets data

Track IPOs and other equity issuance to understand capital raising, valuation, public-market entry and sponsor exit activity across global markets.

FTSE StepStone Private markets indices

FTSE Russell in partnership with StepStone has developed a suite of private markets indices using NAV and cashflow data sourced directly from general partners. Updated daily with reported data, FX rates and, where relevant, public market comparators, the indices offer broad coverage across global regions, strategies and stages. Flexible methodologies, including cash-adjusted and market-based approaches, plus bespoke benchmarking services enable tailored performance insights across private markets.

Cambridge Associates benchmarking data

Provides fund performance across 11,200+ funds globally with coverage dating back to 1981, including 6,600+ PE/VC funds, 1,400+ real estate funds, 900+ private credit funds and 250+ infrastructure funds.

Private Markets news

LSEG brings together trusted news from Reuters, Dow Jones and other leading sources with expanding proprietary private-markets coverage, helping clients stay on top of developments across unlisted markets. Dedicated AI-generated News Briefs already cover approximately 13,800 private companies and investment firms, with thousands more added each month, turning corporate announcements and disclosures into concise intelligence on company developments, capital flows, market trends and portfolio activity.

Private Company credit risk

Assess the financial health of private companies with LSEG StarMine® Private Company SmartRatios. Gain a consistent view of credit risk through probability of default estimates, credit grades and comparative scores, helping you evaluate companies and identify potential risks across sectors and markets.

Broker research and exclusive insights

Access one of the market's most extensive collections of aftermarket broker research, including exclusive contributors available only through LSEG. Draw on more than 30 million reports from over 1,900 sources, to deepen company and sector analysis, support due diligence, assess market trends and place private-market opportunities in a broader public-market context.
