

FTSE BPAM BOND AND SUKUK INDICES

FTSE Russell Indices has introduced a comprehensive suite of Malaysian bond indices to its range, using the extensive experience of Bond Pricing Agency Malaysia (BPAM). The FTSE BPAM Bond and Sukuk Indices cover the entire local bond universe and serve as the most representative benchmarks for Malaysian fixed income. The index series is calculated and administered by BPAM and distributed and licensed by LSEG.

Decades of experience

FTSE Russell has been calculating and distributing some of the world's best known (and most obscure) indices for years.

Each index is constructed using content sets with the highest data integrity.

BPAM values over 2,000 bonds daily in adherence to strict Securities Commission Malaysia guidelines and has over 120 clients to date.

Its extensive bond database and expertise give it the unique ability to provide the most comprehensive bond indices in Malaysia.

Consistent and market-neutral valuations

Long-established data collection, validation and dissemination procedures are in place to ensure consistent and market-neutral valuations

Our experienced team of analysts rigorously maintains the indices, ensuring data quality and reliability

Established methodology complies with EFFAS-EBC regulations

FTSE BPAM all bond index series

Compare market movements by bond class and/or maturity:

- Government bond indices
- Corporate bond indices
- Maturity band sub-indices
- Sukuk variants of the above

FTSE BPAM liquid index series

Highly liquid and investable indices, ideal for the basis of investment products:

- Each consists of five bonds with the highest volume/liquidity
- Greater sensitivity to market movements
- Ability to access liquidity premium

Availability

FTSE BPAM Indices are viewable on desktop products such as LSEG Workspace, LSEG Datastream® and BPAM BondStream. Email us for feed delivery and licensing queries.

Why choose FTSE BPAM Bond and Sukuk Indices?

Most comprehensive coverage of the Malaysian bond universe

Highly liquid variants, ideal for use as investment products

Extensive bond valuation experience
