- 5.2 Review of constituents for the FTSE ASEAN Extended 60 Index.
 - 5.2.1 Review dates
 - A. The FTSE ASEAN Extended 60 Index is reviewed semi-annually in March and September.
 - B. The data on which the semi-annual review is undertaken will be from the close of business on the Monday four weeks prior to the review effective date.
 - C. Any constituent changes resulting from the semi-annual review will be implemented after the close of business on the third Friday (i.e. effective the following Monday) of March and September.
 - 5.2.2 Review process
 - A. At review, all constituents of the FTSE ASEAN Extended 60 Index must be existing or pending constituents to the FTSE All-World Index and the FTSE Frontier Index, i.e. the review will take into consideration any constituent changes to the FTSE All-World Index and the FTSE Frontier Index as announced by FTSE Russell and will therefore be conducted before the implementation date of these changes.
 - B. A non constituent will be added at the periodic review if it rises to 50th position or above , when ranked by full market capitalisation (i.e., before the application of any investability weighting) .

A constituent will be deleted at the periodic review if it falls to 71st position or below, when ranked by full market capitalisation (i.e., before the application of any investability weighting) .
 - C. At review, a constant number of constituents will be maintained for the FTSE ASEAN Extended 60 Index. Where a greater number of companies qualify to be inserted in an index than those qualifying to be deleted, the lowest-ranking constituents presently included in the index will be deleted to ensure that an equal number of companies are inserted and deleted at the periodic review. Likewise, where a greater number of companies qualify to be deleted than those qualifying to be inserted, the securities of the highest-ranking companies that are presently not included in the index will be inserted to match the number of companies being deleted at the periodic review.
 - D. Where a FTSE ASEAN Extended 60 Index constituent is deleted after the periodic review changes have been announced but before they have been implemented, the company will not be replaced.
- 5.3 **FTSE ASEAN Extended All Cap Shariah Index – Shariah Screening**
 - 5.3.1 The FTSE ASEAN Extended All Cap Shariah Index screening will be reassessed quarterly in March, June, September and December in line with the quarterly screening from Yassar. account new companies entering the underlying index at the periodic review and is implemented on the next working day after the third Friday (i.e. effective Monday) of March, June, September and December.

- 5.3.2 Securities which are subject to surveillance by the stock exchanges and have been assigned to any of the following segments will not be eligible for index inclusion. Where an existing constituent is assigned to an ineligible segment it will normally be deleted from the index quarterly, after the close of business on the third Friday of March, June, September and December. The company will only be reconsidered for index inclusion after a period of 12 months from its deletion subject to it no longer being under surveillance. For the purposes of the index eligibility it will be treated as a new issue.

Country	Exchange	Segment
India	National Stock Exchange	Graded surveillance measure (GSM)
Indonesia	Indonesia Stock Exchange	Watchlist Board
Malaysia	Bursa Malaysia	PN17
Singapore	Singapore Exchange	Watch-list
Thailand	Stock Exchange of Thailand	Companies facing possible delisting according to No. 9(6) of SET's Regulations on Delisting of Securities

- 5.3.3 Securities that are assigned to the above segments after the review announcement date but before the index review effective date are assessed on a case-by-case basis which may generally result in scheduled index review additions, investability weight and shares in issue changes no longer being implemented at the forthcoming review.

A corporate event is a reaction to company news (event) that may impact the index depending on the index rules. Where an index adjustment is required, FTSE Russell will provide notice advising of the timing of the change.

7.5 Takeovers, mergers and demergers

- 7.5.1 The treatment of takeovers, mergers and demergers can be found within the Corporate Actions and Events Guide.
- 7.5.2 If the effect of a merger or takeover is that one constituent in the FTSE ASEAN Extended 60 Index is absorbed by another, the resulting company will remain a constituent of the FTSE ASEAN Extended 60 Index and a vacancy will be created. This vacancy will not be filled until the next semi-annual review.
- 7.5.3 If a constituent company in the FTSE ASEAN Extended 60 Index is taken over by a non-constituent company, the original constituent will be removed. The company resulting from the takeover will not enter the index and a vacancy will be created. This vacancy will not be filled at the next semi-annual review.

Section 8

Treatment of dividends

8. Treatment of dividends

- 8.1 Declared dividends are used to calculate the FTSE ASEAN Extended Index Series. All dividends are applied as at the ex-div date.
- 8.2 A series of net of tax total return indices are also calculated based on the maximum withholding tax rates applicable to dividends received by institutional investors who are not resident in the same country as the remitting company and who do not benefit from double taxation treaties.
