## 1. Introduction

### 1.1 FTSE Chinese Broad Bond 0-10 Years Diversified Select Index

- 1.1.1 FTSE Chinese Broad Bond 0-10 Years Diversified Select Index ("Index") measures the performance of fixed-rate, onshore Chinese yuan-denominated, investment-grade, interbank bonds with time-to-maturity greater than or equal to one month and less than ten years in the FTSE Chinese (Onshore CNY) Broad Bond 0+ Years Index.
- 1.1.2 The market capitalization-based weights of Government, Agency and Credit sectors in the Index are capped at 20%, 30% and 50% respectively. Furthermore, the total market weight of each issuer within the Credit sector cannot exceed 4.5% of the total index weight, while each industry sector (financial, industrial, utility, government related) within the Credit sector cannot exceed 50% of the Credit sector weight. After the sector weights and issuer weights are determined, constituents within each sector are assigned weights in proportion to their market capitalization.
- 1.1.3 FTSE Chinese Broad Bond 0-10 Years Diversified Select Index does not take account of ESG factors in its design.

### 1.2 FTSE Russell

FTSE Russell is a trading name of FTSE International Limited, Frank Russell Company, FTSE Global Debt Capital Markets Limited (and its subsidiaries FTSE Global Debt Capital Markets Inc. and FTSE Fixed Income Europe Limited), FTSE Fixed Income LLC, FTSE (Beijing) Consulting Limited, Refinitiv Benchmark Services (UK) Limited, Refinitiv Limited and Beyond Ratings.

- 1.3 FTSE Russell hereby notifies users of the index that it is possible that factors, including external factors beyond the control of FTSE Russell, may necessitate changes to, or the cessation, of the index and therefore, any financial contracts or other financial instruments that reference the index or investment funds which use the index to measure their performance should be able to withstand, or otherwise address the possibility of changes to, or cessation of, the index.
- 1.3.1 Index users who choose to follow this index or to buy products that claim to follow this index should assess the merits of the index's rules-based methodology and take independent investment advice before investing their own or client funds. No liability whether as a result of negligence or otherwise is accepted by FTSE Russell or any members of the FTSE Russell Policy Advisory Board (or any person concerned with the preparation or publication of these Ground Rules) for any losses, damages, claims and expenses suffered by any person as a result of:
- any reliance on these Ground Rules, and/or
  - any inaccuracies in these Ground Rules, and/or
  - any non-application or misapplication of the policies or procedures described in these Ground Rules, and/or
  - any inaccuracies in the compilation of the Index or any constituent data.

## Section 2

# Management responsibilities

---

## 2. Management responsibilities

### 2.1 FTSE International Limited (FTSE)

2.1.1 FTSE is the benchmark administrator of the index series.<sup>1</sup>

2.1.2 FTSE is responsible for the daily calculation, production and operation of the index series and will:

- maintain records of the index weightings of all constituents;
- make changes to the constituents and their weightings in accordance with the Ground Rules;
- carry out the periodic index reviews of the index series and apply the changes resulting from the reviews as required by the Ground Rules;
- disseminate the indices.

### 2.2 Amendments to these Ground Rules

2.2.1 These Ground Rules shall be subject to regular review (at least once a year) by FTSE Russell to ensure that they best reflect the aim of the index series. Any proposals for significant amendments to these Ground Rules will be subject to consultation with FTSE Russell advisory committees and other stakeholders if appropriate. The feedback from these consultations will be considered by the FTSE Russell Index Governance Board before approval is granted.

2.2.2 As provided for in the Statement of Principles for FTSE Russell Fixed Income Indices, where FTSE Russell determines that the Ground Rules are silent or do not specifically and unambiguously apply to the subject matter of any decision, any decision shall be based as far as practical on the Statement of Principles. After making any such determination, FTSE Russell shall advise the market of its decision at the earliest opportunity. Any such treatment will not be considered as an exception or change to the Ground Rules, or to set a precedent for future action, but FTSE Russell will consider whether the Ground Rules should subsequently be updated to provide greater clarity.

---

<sup>1</sup> The term administrator is used in this document in the same sense as it is defined in [Regulation \(EU\) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds](#) (the European Benchmark Regulation) and [The Benchmarks \(Amendment and Transitional Provision\) \(EU Exit\) Regulations 2019](#) (the UK Benchmark Regulation).

## Section 3

# FTSE Russell index policies

---

## 3. FTSE Russell index policies

These Ground Rules should be read in conjunction with the following policy documents which can be accessed using the links below or by contacting [fi.index@lseg.com](mailto:fi.index@lseg.com). These policies are reviewed annually and any changes are approved by the FTSE Russell Index Governance Board.

### 3.1 Statement of Principles for FTSE Fixed Income Indices (the Statement of Principles)

Indices need to keep abreast of changing markets and the Ground Rules cannot anticipate every eventuality. Where the Ground Rules do not fully cover a specific event or development, FTSE Russell will determine the appropriate treatment by reference to the Statement of Principles for FTSE Fixed Income Indices which summarises the ethos underlying FTSE Russell's approach to index construction. The Statement of Principles is reviewed annually and any changes proposed by FTSE Russell are presented to the FTSE Russell Policy Advisory Board for discussion before approval by the FTSE Russell Index Governance Board.

The Statement of Principles for Fixed Income Indices can be accessed using the following link:

[Statement of Principles Fixed Income Indices.pdf](#)

### 3.2 Queries and Complaints

FTSE Russell's complaints procedure can be accessed using the following link:

[Benchmark Determination Complaints Handling Policy.pdf](#)

### 3.3 Recalculation Policy and Guidelines

The Recalculation Policy and Guidelines for Fixed Income Indices document is available from the FTSE Russell website using the link below or by contacting [fi.index@lseg.com](mailto:fi.index@lseg.com).

[Fixed Income Recalculation Policy and Guidelines.pdf](#)

### 3.4 Index Policy in the Event Clients are Unable to Trade a Market or a Security

3.4.1 Details of FTSE Russell's treatment can be accessed using the following link:

[Index Policy in the Event Clients are Unable to Trade a Market or a Security.pdf](#)

### 3.5 Policy for Benchmark Methodology Changes

Details of FTSE Russell's policy for making benchmark methodology changes can be accessed using the following link:

[Policy for Benchmark Methodology Changes.pdf](#)

### **3.6 FTSE Russell Governance Framework**

3.6.1 To oversee its indices, FTSE Russell employs a governance framework that encompasses product, service and technology governance. The framework incorporates the London Stock Exchange Group's three lines of defence risk management framework and is designed to meet the requirements of the IOSCO Principles for Financial Benchmarks<sup>2</sup> and the European benchmark regulation<sup>3</sup>. The FTSE Russell Governance Framework can be accessed using the following link:

<sup>2</sup> IOSCO Principles for Financial Benchmarks Final Report, FR07/13 July 2013.

<sup>3</sup> Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds.

## Section 4

# Composition and design criteria

## 4. Composition and design criteria

### 4.1 Design criteria and calculation assumptions for the FTSE Chinese Broad Bond 0-10 Years Diversified Select Index

Coupon	Fixed-rate
Currency	CNY
Country of Issuance	China
Minimum maturity	At least one month and less than 10 years
Minimum issue size	Government: CNY 35 billion Policy Bank: CNY 15 billion Regional Government and other Government Sponsored: CNY 10 billion Others (including Panda bonds): CNY 3 billion
Minimum credit quality	Treasury and Agency: No minimum rating Credit: BBB- by S&P and Baa3 by Moody's
Composition	Securities included: Chinese Interbank Bond Market listed Fixed-rate government bonds, government sponsored bonds, regional government bonds, and corporate bonds Securities excluded: Bonds with maturity greater than 30 years from issuance, and bonds issued prior to January 1, 2005. Chinese regional government bonds issued prior to April 1, 2015. Government: zero-coupon bonds, saving bonds, special government bonds. Policy Bank: central bank bills, private placements, retail bonds, callable and puttable bonds Others: asset-backed and mortgage-backed securities, private placements, retail bonds, zero-coupon, callable, puttable, convertible
Weighting	Market capitalization subject to following caps: - Government, Agency and Credit sectors are capped at 20%, 30% & 50% respectively - Within Credit sector, apply an industry (utility, financial, industrial, government related) cap of 50% and an issuer cap of 4.5% After the sector weights and issuer weights are determined, constituents within each sector are assigned weights in proportion to their market capitalization.
Rebalancing	Once a month on the last business day of the month (pricing as of the last business day of the monthly and settlement as of the last calendar day of the month.)
Reinvestment of cash flows	Intra-month cash flows from interest and principal payments are not reinvested as part of monthly index total return calculations. <sup>4</sup>
Pricing	LSEG Pricing Service 6pm Tokyo
Calculation frequency	Daily

<sup>4</sup> Prior to 1 November 2022, reinvestment income was included in the total return calculation.

<b>Settlement date</b>	Monthly: Settlement is on the last calendar day of the month. Daily: Same day settlement except if the last business day of the month is not the last calendar day of the month; then, settlement is on the last calendar day of the month.
<b>Fixing date</b>	Each month, the upcoming month's index constituents are "fixed" on the profile fixing date. Each year's scheduled fixing dates are published on the website.
<b>Base date</b>	December 31, 2013

## 4.2 Holiday calendar

- 4.2.1 The index is calculated Monday through Friday except Christmas Day (observed) and New Year's Day (observed). Each local market will observe its own holiday calendar; if a local market is on holiday, the closing prices used for that day will be the closing prices from the previous day.

## 4.3 Index quality

- 4.3.1 An index quality is assigned to each index bond as of profile fixing. The quality is first mapped to the Standard & Poor's Financial Services LLC ("S&P") rating. If a bond is not rated by S&P but it is rated by Moody's Investors Service, Inc ("Moody's"), the S&P equivalent of the Moody's rating is assigned to the index quality. If a bond is rated by neither S&P nor Moody's, the bond is not assigned an index quality. If a bond is rated as investment-grade by one rating agency and high-yield by the other, the S&P equivalent of the investment-grade rating is assigned to the index quality. These ratings remain unchanged for the entire performance month.

## 4.4 Return computation

- 4.4.1 Total returns are computed on the assumption that each security is purchased at the beginning of the period and sold at the end of the period. An issue's total rate of return is the percentage change in its total value over the measurement period. The components of total return for each security are price change, principal payments, coupon payments and accrued interest. The total returns are market capitalization-weighted using the security's beginning-of-period market value (see Figure 2).

**Figure 1. Total rate of return calculation methodology**

<b>Beginning-of-period value</b>	– (Beginning price + Beginning accrued) x Beginning par amount outstanding
<b>End-of-period value</b>	– [(Ending price + Ending accrued) x (Beginning par amount outstanding – Principal payments)] + Coupon payments + Principal payments
<b>Total rate of return (%)</b>	– [(End-of-period value/Beginning-of-period value) – 1] x 100

A note on precision: Returns are computed to at least six decimal places but reported to a maximum of four. In addition, owing to rounding inaccuracies inherent in computer floating-point arithmetic, the last digit in any reported value may sometimes be off by one from its true value.

## 4.5 Ticker for the FTSE Chinese Broad Bond 0-10 Years Diversified Select Index

<b>Ticker</b>	<b>Index</b>
CFIICNDS	FTSE Chinese Broad Bond 0-10 Years Diversified Select Index, in USD terms

## 4.6 Chronological summary of events

### FTSE Chinese Broad Bond 0-10 Years Diversified Select Index summary of events

<b>Year</b>	<b>Monthly highlights</b>
<b>2024</b>	<b>February:</b> The FTSE Chinese Broad Bond 0-10 Years Diversified Select Index is introduced.
