Introduction

1. Introduction

- 1.1 This document sets out the Ground Rules for the construction and management of the FTSE Index-Level Composite Index Series. Copies of the Ground Rules are available from www.lseg.com/en/ftse-russell/.
- 1.2 The FTSE Index-Level Composite Index Series reflects the performance of a combination of component indices and a cash component, with positive and negative weightings.
- 1.3 The FTSE Index-Level Composite Indices will be calculated on an end of day basis.
- 1.4 A FTSE Index-Level Composite Index will be calculated on all index businesses days of its component indices.
- 1.5 The FTSE Index-Level Composite Index Series does not take account of ESG factors in its index design.
- 1.6 These Ground Rules should be read in conjunction with the corresponding index rules of the component indices, which are available at www.lseg.com/en/ftse-russell/.
- 1.7 The FTSE Index-Level Composite Index Series consists of the following indices:

1.8 FTSE Russell

FTSE Russell is a trading name of FTSE International Limited, Frank Russell Company, FTSE Global Debt Capital Markets Limited (and its subsidiaries FTSE Global Debt Capital Markets Inc. and FTSE Fixed Income Europe Limited), FTSE Fixed Income LLC, FTSE (Beijing) Consulting Limited, Refinitiv Benchmark Services (UK) Limited, Refinitiv Limited and Beyond Ratings.

1.9 FTSE Russell hereby notifies users of the index series that it is possible that circumstances, including external events beyond the control of FTSE Russell, may necessitate changes to, or the cessation of, an index within the index series and therefore, any financial contracts or other financial instruments that reference the index or investment funds which use the index series to measure their performance should be able to withstand, or otherwise address the possibility of changes to, or cessation of, the index.

1.10 Index users who choose to follow this index series or to buy products that claim to follow an index within this index series should assess the merits of the index's rules-based methodology and take independent investment advice before investing their own or client funds. No liability whether as a result of negligence or otherwise is accepted by FTSE Russell (or any person concerned with the preparation or publication of these Ground Rules) for any losses, damages, claims and expenses suffered by any person as a result of:

- any reliance on these Ground Rules, and/or
- any inaccuracies in these Ground Rules, and/or
- any non-application or misapplication of the policies or procedures described in these Ground Rules, and/or
- any inaccuracies in the compilation of the index series or any constituent data.

Section 2

Management responsibilities

2. Management responsibilities

2.1 FTSE International Limited (FTSE)

2.1.1 FTSE is the benchmark administrator of the index.¹

2.1.2 FTSE is responsible for the daily calculation, production and operation of the index series and will:

- maintain records of the weights of all components indices in the FTSE Index-Level Composite Index Series;
- make changes to the components and their weightings in accordance with the Ground Rules;
- carry out the periodic reviews of the index series and apply the changes resulting from the reviews as required by the Ground Rules;
- publish changes to the component index weightings resulting from their ongoing maintenance and the periodic reviews;
- disseminate the indices.

2.1.3 These Ground Rules set out the methodology and provide information about the publication of the FTSE Index-Level Composite Index Series.

2.2 Amendments to these Ground Rules

2.2.1 These Ground Rules shall be subject to regular review by FTSE Russell to ensure that they continue to best reflect the aims of the index series. Any proposals for significant amendments to these Ground Rules will be subject to consultation with FTSE Russell advisory committees and other stakeholders if appropriate. The feedback from these consultations will be considered by the FTSE Russell Index Governance Board before approval is granted.

2.2.2 As provided for in the Statement of Principles for FTSE Russell Equity Indices, where FTSE Russell determines that the Ground Rules are silent or do not specifically and unambiguously apply to the subject matter of any decision, any decision shall be based as far as practical on the Statement of Principles. After making any such determination, FTSE Russell shall advise the market of its decision at the earliest opportunity. Any such treatment will not be considered as an exception or change to the Ground Rules, or to set a precedent for future action, but FTSE Russell will consider whether the Ground Rules should subsequently be updated to provide greater clarity.

¹ The term administrator is used in this document in the same sense as it is defined in [Regulation \(EU\) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds](#) (the European Benchmark Regulation) and [The Benchmarks \(Amendment and Transitional Provision\) \(EU Exit\) Regulations 2019](#) (the UK Benchmark Regulation).

Section 3

FTSE Russell Index policies

3. FTSE Russell Index policies

These Ground Rules should be read in conjunction with the following policy documents which can be accessed using the links below:

3.1 Statement of Principles for FTSE Russell Equity Indices (the Statement of Principles)

Indices need to keep abreast of changing markets and the Ground Rules cannot anticipate every eventuality. Where the Ground Rules do not fully cover a specific event or development, FTSE Russell will determine the appropriate treatment by reference to the Statement of Principles which summarises the ethos underlying FTSE Russell's approach to index construction. The Statement of Principles is reviewed annually and any changes proposed by FTSE Russell are presented to the FTSE Russell Policy Advisory Board for discussion before approval by FTSE Russell's Product Governance Board.

The Statement of Principles can be accessed using the following link:

Section 6

Index calculation methodology

6. Index calculation

6.1 The FTSE Index-Level Composite Index Series is calculated at the index business day t according to the below formula:

$$I(t) = I(t-1) \times \left(\sum_{i=1}^N w_i^o(t) \times r_i(t) + w_c^o(t) \times \frac{D(t, t-1)}{DC} \times r_c(t) - \frac{D(t, t-1)}{DC} \times r_s + 1 \right) \quad [1]$$

where:

- $I(t)$ is the value of the index at the time t
- N is the number of component indices
- $r_i(t)$ is the return of the component index i in the base currency of the composite index at the time t
- $r_c(t)$ is the latest available cash rate at the time t (see section 6.2.1)
- r_s is the spread cost. 0 if the index has no spread cost (see section 4.3)
- DC is the day count basis for the corresponding cash rate or spread cost (see sections 4.3 and 6.2.2)
- $D(t, t-1)$ is the number of calendar days between t and $t-1$
- $w_i^o(t)$ is the open weight of the index i at the time t
- $w_c^o(t)$ is the open weight of the cash component at the time t

where

$$w_i^o(t) = \begin{cases} w_{oi}(t-1) \times \frac{1 + r_i(t-1)}{1 + R(t-1)} & , t \text{ is not a rebalance effective day} \\ w_i^{o*} & , t \text{ is a rebalance effective day} \end{cases} \quad [2]$$

and

$$w_c^o(t) = \begin{cases} w_c(t-1) \times \frac{1 + \frac{D(t-1, t-2)}{DC} \times r_c(t-1)}{1 + R(t-1)} & , t \text{ is not a rebalance effective day} \\ w_c^{o*} & , t \text{ is a rebalance effective day} \end{cases} \quad [3]$$

where

- $R(t - 1)$ is the composite index return at $t - 1$: $R(t - 1) = \frac{I(t-1)}{I(t-2)} - 1$
- w_i^{o*} is the review effective weight for component index i
- w_c^{o*} is the review effective for the cash component

6.2 Cash rate

6.2.1 At each index calculation day, the latest available cash rate is the rate available at the open of the index business day and is used for the calculation of the index value of the day.

6.2.2 Below table contains latest available cash rate for index calculation and their corresponding day count basis.

Cash Rate	Latest Available Cash Rate at day t	Day Count Basis
SONIA	$t - 1$	365
EONIA	$t - 1$	360
Fed Funds Effective Rate	$t - 2$	360
