- 1.4.1 FTSE Russell hereby notifies users of the index series that it is possible that circumstances, including external events beyond the control of FTSE Russell, may necessitate changes to, or the cessation of, the index series and therefore, any financial contracts or other financial instruments that reference the index series or investment funds which use the index series to measure their performance should be able to withstand, or otherwise address the possibility of changes to, or cessation of, the index.
- 1.4.2 Index users who choose to follow this index series or to buy products that claim to follow this index series should assess the merits of the index's rules-based methodology and take independent investment advice before investing their own or client funds. Section 2

Management responsibilities

2. Management responsibilities

2.1 FTSE International Limited (FTSE)

2.1.1 FTSE is the benchmark administrator of the index series¹.

2.1.2 FTSE is responsible for the daily calculation, production and operation of the index series, and will:

- maintain records of the index weightings of all constituents;
- make changes to the constituents and their weightings in accordance with the Ground Rules;
- carry out the periodic index reviews of the index series and apply the changes resulting from the reviews as required by the Ground Rules;
- publish changes to the constituent weightings resulting from their ongoing maintenance and the periodic reviews; and
- disseminate the indices.

2.2 Amendments to these Ground Rules

2.2.1 These Ground Rules shall be subject to regular review (at least once a year) by FTSE Russell to ensure that they continue to best reflect the aims of the index series. Any proposals for significant amendments to these Ground Rules will be subject to consultation with FTSE Russell advisory committees and other stakeholders if appropriate. The feedback from these consultations will be considered by the FTSE Russell Index Governance Board before approval is granted.

2.2.2 As provided for in the Statement of Principles for FTSE Russell Equity Indices, where FTSE Russell determines that the Ground Rules are silent or do not specifically and unambiguously apply to the subject matter of any decision, any decision shall be based as far as practical on the Statement of Principles. After making any such determination, FTSE Russell shall advise the market of its decision at the earliest opportunity. Any such treatment will not be considered as an exception or change to the Ground Rules, or to set a precedent for future action, but FTSE Russell will consider whether the rules should subsequently be updated to provide greater clarity.

¹ The term administrator is used in this document in the same sense as it is defined in [Regulation \(EU\) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds](#) (the European Benchmark Regulation) and [The Benchmarks \(Amendment and Transitional Provision\) \(EU Exit\) Regulations 2019](#) (the UK Benchmark Regulation).

Section 5

Custom inclusion criteria

5. Eligibility criteria

FTSE4Good Custom Developed Exclusions Index follows the eligibility criteria laid out in the [FTSE4Good Index Series Ground Rules](#), in addition to custom inclusion criteria detailed below.

- 5.1.1 The inclusion criteria for the constituents of the FTSE4Good Index Series aims to align with evolving corporate sustainability practices and expectations of investors and the wider stakeholder community while maintaining broad representation of their underlying indices (e.g. around half of the companies in the underlying index measured by free-float market capitalisation). Over time, FTSE Russell intends to gradually raise the addition and deletion thresholds for both developed and emerging markets and reduce the difference between the two groups to ensure consistency with market expectations and developments in corporate sustainability practices⁶.

5.2 Standard Exclusions

- 5.2.1 The FTSE4Good Custom Developed Exclusions Index applies the Minimum Set of Exclusions⁷ for ESG indices and excludes companies involved in specific product-related activities (Controversial Weapons, Tobacco, Coal, Oil & Gas and Electricity Generation) and conduct-related activities (Controversies) as outlined in Appendix A.

5.3 Custom Exclusion Criteria (specified by the client)

- 5.3.1 The FTSE4Good Custom Developed Exclusions Index excludes companies involved in Abortion, Contraceptives and Human Embryonic Stem Cell and Fetal Tissue activities as outlined in Appendix B.

⁶ Since 2001, the FTSE4Good Developed Index has seen approximately half of the companies in the underlying index qualify for index inclusion. This has been achieved through improvements in corporate sustainability practices and gradual changes to the index inclusion methodology that have raised the bar for inclusion over time. See [FTSE Russell Sustainable Investment Consultation - 2019](#) and [FTSE4Good Index Series - Inclusion Criteria - Ground Rule Update 2019](#)

⁷ Details of the minimum exclusions can be found in Section 8 of the [Guide to the Construction and Maintenance of FTSE Exclusion Lists.pdf](#).

Section 6

Periodic review of constituents

6. Periodic review of constituents

6.1 Index reviews

- 6.1.1 The FTSE4Good Custom Developed Exclusions Index is reviewed semi-annually in June and December using data as at the close of business on the Monday four weeks prior to review effective date.
- 6.1.2 The data cut-off dates for ESG data inputs are in the [Guide-to-FTSE-and-Third-Party-ESG-Data-used-in-FTSE-Russell-Indices.pdf](#)
- 6.1.3 Any constituent changes resulting from the index reviews will be implemented after the close of business on the third Friday (i.e. effective from the open on the following Monday) of June and December.
- 6.1.4 The index will reflect any intra-review deletions to the underlying FTSE4Good Developed Index.

Section 7

Corporate actions and events

7. Corporate actions and events

- 7.1 Full details of changes to constituent companies due to corporate actions and events can be accessed in the Corporate Actions and Events Guide using the following link:

[Corporate Actions and Events Guide.pdf](#)

A corporate action is an action on shareholders with a prescribed ex-date. The share price will be subject to an adjustment on the ex-date. These include the following:

- capital repayments;
- rights issues/entitlement offers;
- stock conversion;
- splits (sub-division)/reverse splits (consolidation); and
- scrip issues (capitalisation or bonus issue).

A corporate event is a reaction to company news (event) that may impact the index depending on the index rules. For example, a company announces a strategic shareholder is offering to sell their shares (secondary share offer) – this could result in a free float weighting change in the index. Where an index adjustment is required, FTSE will provide notice advising of the timing of the change.

7.2 Shares in issue

- 7.2.1 Changes to the number of shares in issue for constituent securities are covered in the Corporate Actions and Events Guide.

7.3 Investability weightings

- 7.3.1 Changes to free float for constituent securities are covered in the Corporate Actions and Events Guide.
