# FTSE MPF INDEX SERIES 2010 MARKET CONSULTATION AND PRODUCT ENHANCEMENTS

## BACKGROUND

In 2001 FTSE Group ("FTSE") launched the Mandatory Provident Fund (MPF) benchmarks to meet the specific needs of the Hong Kong investment community. The FTSE All-World Index Series was selected by Towers Watson and the Hong Kong Investment Funds Association ("HKIFA") as the base universe for a range of country and regional equity indices. The FTSE MPF Index Series comprises 23 indices covering portfolio types which capture the investment opportunity allowable under the MPF system.

# **MARKET DRIVEN - ENHANCING THE SERIES**

In 2010, HKIFA, Towers Watson and FTSE conducted a consultation among members of the HKIFA to review the existing FTSE MPF Index Series. The aim of the consultation was to ensure the indices provide the most precise benchmarks for the market by accurately reflecting regulatory requirements, permitted investment markets and asset classes as well as accounting for investment restrictions applied to the MPF system.

The findings from the 2010 market consultation will be used to enhance the index series that would meet the needs of all interested parties while taking the unique regulatory requirements under the MPF system into consideration. The next consultation will be conducted in 2013.
