

Why you need the UK Monitor List

As a subscribing customer, the FTSE UK Monitor List gives you access to the same clean and comprehensive UK equity universe used by our Index Review team to conduct index rebalances.

A transparent, comprehensive, and timely data source

The FTSE UK Monitor List comprises the complete equity security universe eligible for inclusion in the FTSE UK Index Series.

The FTSE UK Index Series is reviewed quarterly in March, June, September and December. The annual review of the liquidity screen and the FTSE Fledgling is conducted in June. Eligible securities are required to pass certain inclusion criteria including minimum liquidity and free float requirements in order to be considered for the FTSE UK Index Series at a periodic review.

The FTSE UK Monitor List highlights those securities which are members of the FTSE 100, FTSE 250, FTSE SmallCap and FTSE Fledgling indices. It also highlights those securities which are ineligible for index inclusion due to having failed an inclusion criteria (e.g. nationality, liquidity, ineligible ICB classification) and new or newly eligible securities which are marked as 'monitored' and subject to assessment at the next periodic review.

The product is maintained daily and delivered at end of UK market close as a product file offering.
