Market Consultation on the Treatment of Suspended Constituents in the FTSE China A Index Series
Market Consultation on the Treatment of Suspended Constituents in the FTSE China A Index Series

Introduction

The shares of Chinese companies can be suspended pending certain corporate events such as mergers, new share issues or restructurings. The proportion of stocks suspended for these reasons is much higher than is typically found in other markets - the percentage of companies in the FTSE China A 600 index which are currently suspended is c. 11% - and the suspensions can be for several months and occasionally longer than a year.

FTSE’s suspended stock policy, as set out in Section 2.15 of the FTSE Corporate Action Guide (http://www.ftse.com/products/downloads/FTSE_Corporate_Actions_and_Events_Guide.pdf), was recently invoked to effect the removal of a constituent of the FTSE China A Index Series which includes the FTSE China A50 Index. The company in question, China Yangtze Power (A), was a constituent of the FTSE China A50 Index and its shares had been suspended for 60 trading days. On 16 September 2015 FTSE announced the removal of these shares from the A50 index at zero value on the effective date of the forthcoming A50 index review (http://www.ftse.com/products/index-notices/home/getnotice/?id=1359210).

Subsequent to this event, FTSE would like to consult users of the index on how such extended suspensions should be treated in the FTSE China A Index Series in future. Accordingly we invite interested parties to respond to the consultation questions below.
Background Information

1. Name of Organisation

2. Please describe your interest in the FTSE China A Index Series (including the FTSE China A50 index)
   a. ETF issuer
   b. Swap counterparty
   c. Futures trader
   d. Passive investor
   e. Active investor
   f. Other (please describe)

3. Please state the approximate value, or notional value, of your interest in the FTSE China A Index Series
   a. Less than $500M USD
   b. Between $500M and $1bn USD
   c. Between $1bn and $5bn USD
   d. Over $5bn USD

4. What is your contractual arrangement with FTSE
   a. Data licence
   b. Fund licence
   c. Product licence (listed or OTC)
   d. Other (please describe)
   e. None

5. Where do you normally obtain information on forthcoming changes to the FTSE China A Index Series?
   a. From FTSE data files
   b. From FTSE Technical Notices
   c. From other sources (please state which)
Index Treatment

6. Which of the following potential index treatments would you prefer for constituents that have been suspended for significant periods, but which are not considered valueless (i.e. the company is not thought likely to enter bankruptcy proceedings)?
   a. The constituent should be deleted at zero value
   b. The constituent should be deleted at fair value
   c. The constituent should be deleted at last traded price
   d. The constituent should be retained in the index

7. If you consider that the constituent should be retained in the index, what value should be assigned to it?
   a. Last traded price
   b. Fair value
   c. Zero value
   d. Some other value (please state what)

8. If you consider the constituent should be deleted, either at zero, at fair value or last traded price, when should the decision be taken assuming the company has not provided a firm date for the resumption of trading?
   a. After 40 trading days of continuous suspension
   b. After 60 trading days of continuous suspension
   c. After 80 trading days of continuous suspension
   d. After 100 or more trading days of continuous suspension (please state when)

9. If a decision is taken to delete the constituent, what minimum notice should FTSE give before making the deletion effective (assume the decision would be rescinded if trading were to recommence or a firm date for the resumption of trading were to be provided)?
   a. 10 trading days
   b. 20 trading days
   c. 40 trading days
   d. Some other time (please state when)
10. If a decision is taken to delete the constituent, should the deletion be made effective at the next index review (subject to the minimum notice period from Question 9)?
   a. Yes
   b. No

11. If you consider the constituent should be deleted at fair value, or retained in the index at fair value, how should that value be determined?
   a. By adjusting the last traded price by the subsequent market return
   b. By adjusting the last traded price by the subsequent sector return
   c. By market consultation
   d. Other (please state how)

12. If a constituent is deleted and then subsequently resumes trading, should the constituent be re-instated?
   a. Yes, if the resumption is within 20 trading days of deletion
   b. Yes, if the resumption is within 60 trading days of deletion
   c. Yes, if the resumption is within 120 trading days of deletion
   d. Yes, but some other time period (please state)
   e. No

13. If a deleted constituent is re-instated in the index, what should the inclusion price be?
   a. The deletion price
   b. Some other price (please say which)

14. If a deleted constituent is re-instated in the index, what should its future treatment be if, as in the A50 index, the required number of constituents is exceeded?
   a. The re-instated constituent should be deleted with notice, e.g. T+5?
   b. The index should continue with an extra constituent until the next review

Other Considerations

15. Please provide any additional comments you wish to make.
Responding to the consultation

Please provide answers to this consultation online at
https://www.surveymonkey.com/r/5BTZX2S

The consultation will close on 23 October 2015. All responses will be treated as confidential.
