

SOLUTION OVERVIEW

FTSE US Municipal Tax-Exempt Investment-Grade Bond Index

Overview

The FTSE US Municipal Tax-Exempt Investment-Grade Bond Index is designed to measure the performance of the investment-grade tax-exempt US municipal bond market. The index includes US Dollar-denominated bonds issued by municipalities or other municipal entities domiciled in the US and US territories.

A barometer for the US' large and diverse municipal bond market

The index provides broad, representative coverage of the US municipal bond market, including granular sub-indexes to allow for greater visibility and analysis of the municipal bond market structure.

Analytics provided by The Yield Book platform

The index is supported by a comprehensive suite of analytics calculated by the Yield Book, a trusted and authoritative source for fixed income analytics that enables market makers and institutional investors to perform complex and accurate analysis and risk management.

Features

Representative

The index provides broad, comprehensive coverage of the US municipal tax-exempt investment-grade bond market.

Transparent

The index is constructed according to a transparent, publicly available set of rules that were designed to incorporate extensive feedback from market participants.

Pricing

Pricing is provided by LSEG Data & Analytics a recognized, reliable pricing source and one of the world's largest providers of financial markets data and infrastructure.

Customizable

The index is fully customizable based on a wide range of attributes, including credit quality, state, municipal sector classification, and maturity.

The information contained in this report should not be considered "research" as defined in recital 28 of the Commission Delegated Directive (EU) 2017/593 of 7 April 2016 supplementing Directive 2014/65/EU of the European Parliament and of the Council ("MiFID II") and is provided for no fee.

Past performance is no guarantee of future results. Charts and graphs are provided for illustrative purposes only. Index returns shown may not represent the results of the actual trading of investable assets. Certain returns shown may reflect back-tested performance. All performance presented prior to the index inception date is back-tested performance. Back-tested performance is not actual performance, but is hypothetical. The back-test calculations are based on the same methodology that was in effect when the index was officially launched. However, back-tested data may reflect the application of the index methodology with the benefit of hindsight, and the historic calculations of an index may change from month to month based on revisions to the underlying economic data used in the calculation of the index.

This document may contain forward-looking assessments. These are based upon a number of assumptions concerning future conditions that ultimately may prove to be inaccurate. Such forward-looking assessments are subject to risks and uncertainties and may be affected by various factors that may cause actual results to differ materially. No member of the LSE Group nor their licensors assume any duty to and do not undertake to update forward-looking assessments.

No part of this information may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without prior written permission of the applicable member of the LSE Group. Use and distribution of the LSE Group data requires a licence from FTSE, Russell, FTSE Canada, FTSE FI, FTSE FI Europe, YB, BR and/or their respective licensors.

About FTSE Russell

FTSE Russell is a leading global provider of index and benchmark solutions, spanning diverse asset classes and investment objectives. As a trusted investment partner we help investors make better-informed investment decisions, manage risk, and seize opportunities.

Market participants look to us for our expertise in developing and managing global index solutions across asset classes. Asset owners, asset managers, ETF providers and investment banks choose FTSE Russell solutions to benchmark their investment performance and create investment funds, ETFs, structured products, and index-based derivatives.
