# FAQ

## 1. Index rebalance market cap data cut-off

The market capitalisation cut-off date used in the ranking process to determine rebalance changes at index reviews will be on the Tuesday before the first Friday in March, June, September and December.

**For illustration purposes:** the market capitalisation cut-off date for the March 2026 quarterly review will take place at close of business on Tuesday 3 March 2026. The rebalance changes will be announced after close Wednesday 4 March 2026.

For the avoidance of doubt, the share number and close price used in the calculation of the full market capitalisation will be reflected in the Monitored List as at close on the relevant cut-off date.

Free float and shares in issue reflected within the Monitored List are updated in accordance with the methodology stated within the FTSE Russell Indices - Quarterly and Intra Quarter Free Float and Share Updates FAQ. As a result, the Monitored List free float or shares in issue at the index review cut-off date (and used for ranking purposes) may not mirror the most up-to-date company free float or shares in issue number at that date.

## 2. Rebalance effective date

The FTSE UK Index Series is reviewed on a quarterly basis in March, June, September and December.

Any constituent changes will be implemented after the close of business on the third Friday of the review month (i.e. effective Monday).

### March 2026

The cut-off date for normal quarterly share and free float changes will be the last business day in January.

The cut-off date for normal quarterly share and free float changes will be the last business day in April.

**For illustration purposes:** for the June 2026 quarterly review, the cut-off date will be Thursday 30 April 2026.

**Please note:** in June 2026, all normal quarterly share and free float updates will be implemented **regardless of size** (i.e. the respective 1% and 3% buffers will not be applied). Please refer to the following FAQ document for further details:

[Shares and Free Float Maintenance FAQs](#)

### September 2026

The cut-off date for normal quarterly share and free float changes will be the last business day in July.

**For illustration purposes:** for the September 2026 quarterly review, the cut-off date will be Friday 31 July 2026.

#### December 2026

## 4. Annual liquidity testing period

**For illustration purposes:** Liquidity testing period for the June 2026 review will be from 1 May 2025 to 30 April 2026.

Please refer to the UK Guide to Median Liquidity for further details:

[Guide\\_to\\_Calculation\\_Methods\\_for\\_UK\\_Liquidity.pdf](#)

## 5. New issues cut-off date

New issues will be required to have a minimum 20-day trading record when reviewed.

The 20-day trading period will run up to the Tuesday **before** the first Friday in March, June, September and December.

This rule also applies to newly eligible securities (e.g. transfers from AIM to the Main Market, or from ineligible main market listing categories to the eligible main market listing categories).

For more information on eligible securities, please refer to section 4 of the [FTSE UK Index Series Ground Rules \(Iseg.com\)](#).
