

# Your FX Trading, Reimagined

LSEG Workspace with FXall: 5 key advancements for corporate treasurers

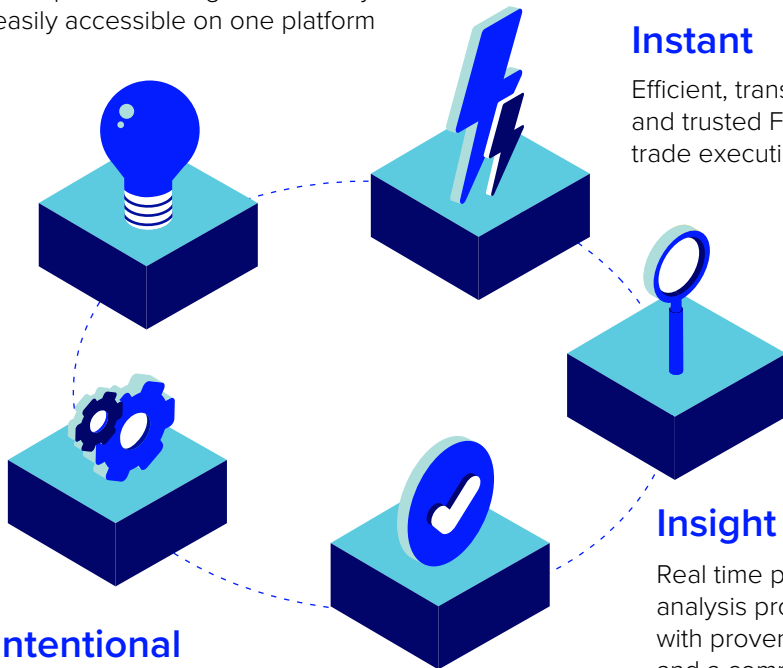

Faced with rising expectations to do more with less, some corporate treasury teams are taking a fresh look at their long-standing solutions.

At a time when efficiency, transparency and ease of integration are increasingly critical, corporate treasury teams are exploring LSEG Workspace with FXall to increase visibility, context and control across entities, currencies and regions.

## What transforms how corporate treasurers manage FX risk?

### Intelligence

Your pre-trade insights and analytics easily accessible on one platform

### Intentional

Align hedging to real-time exposure - with control, governance and predictable outcomes

### Instant

Efficient, transparent and trusted FX trade execution

### Insight

Real time post trade analysis provides you with proven outcomes and a competitive edge

### Intuitive

A new, integrated and future-proofed interface for your entire FX trading workflow

“Efficiency is not about adding more tools. It’s about connecting the ones you already use and making the whole workflow smarter\*.”

Alex Goraieb, LSEG

**85%**  
of treasury professionals use FXall for electronic FX trading

**70%**  
use FXall for trade confirmation

**77%**  
still rely on Excel for risk analytics
