

Sharpen Your Trading Edge

LSEG Workspace with FXall: 5 key advancements for Hedge Fund Managers

In a market where optimal speed and precision can make or break a trade, hedge fund managers need every advantage they can get. LSEG Workspace with FXall brings smarter, trusted execution together with real-time analytics, research and data — all in one environment built for the way you trade FX.

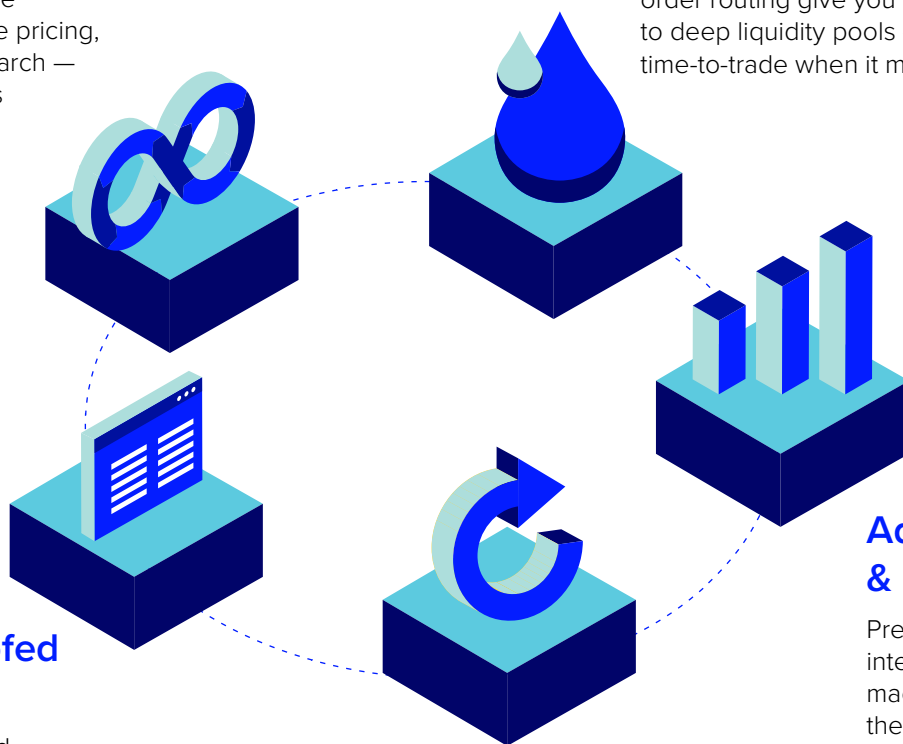

What transforms how Hedge Fund Managers achieve superior FX execution?

Unified FX Trading & Analytics

Execute FX trades directly in LSEG Workspace alongside real-time pricing, analytics and research — so faster decisions come naturally

Faster Execution, Deeper Liquidity Access

Streamlined workflows and smart order routing give you direct access to deep liquidity pools — reducing time-to-trade when it matters most

Future-Proofed Platform

Cloud-enabled and continuously evolving, LSEG Workspace delivers the scalability, APIs and automation to keep pace with your growth

Advanced Analytics & Insights

Pre- and post-trade analysis, integrated charting and macro FX views — all within the same platform powering your trading strategy

Seamless Workflow Integration

Connect trading with research, news and messaging, with full OMS/EMS integration to reduce manual processes and operational risk

LSEG FX

Trade smarter. Move faster. LSEG Workspace with FXall transforms existing FX trading setups by tightening the loop between information, decision-making and execution.
