## 5 Notes for Exchange Hosting London Fees

<sup>1</sup>Trading Participant means an entity completing trading activities on the Exchange Group Markets.

<sup>2</sup>On completing the minimum term, Customer has the option to sign-up to a further minimum term, or automatically transition to a 12-month renewal term.

<sup>3</sup>High user Cabinet charges pricing means a Trading Participant who subscribes to multiple Cabinets in the Exchange Hosting facility in London for the operation and management of their own trading applications and strategies.

<sup>4</sup>Non-Trading Participant means an entity that does not create trading orders themselves but may facilitate certain Trading Participants to complete their activities or provide access to Market Data. The term “Non-TradingParticipant” may also be applicable to Trading Participants with respect to the non-trading activities they may be permitted to perform, such as redistribution of Market Data. Fees exclude Network Service Provider (NSP) or Vendor Access Network (VAN) Fees.

<sup>5</sup> Excess Use Charge is a per kW fee that will be applied for each unauthorised kW (or part kW) a client uses in excess of the power threshold subscribed to by the Customer in the relevant Service Order. .

<sup>6</sup>The caged suite fee is in addition to the Cabinet licence fees, and the caged suite option is only available on Level One of the Data Centre and for Cabinet pods as follows:

- the minimum initial subscription for a single sized caged suite is 10x 5kW Cabinets, increasing to 12x 5kW on the first anniversary of the subscription.
- the minimum initial subscription for a double sized caged suite is 20x 5kW Cabinets, increasing to 24x 5kW on the first anniversary of the subscription.

<sup>7</sup>The Cabinet Installation Fee will be applied per Service Order not per cabinet ordered. Only one Cabinet Installation Fee will be charged per Service Order.

<sup>8</sup>Reservation fees apply to Cabinets that Customers wish to reserve in addition to their subscribed Cabinet(s). Reserve Cabinets are zero-power, and no equipment may be installed or stored in these Cabinets. A minimum 12-month reservation subscription will apply, which can be upgraded to a fully subscribed Cabinet during the reserved period. If the Cabinet is then subscribed and powered on, the last 12 months' reservation fee will be credited towards the powered Cabinet fee.

<sup>9</sup>Additional market connectivity switch ports provide Customer with additional allocation of resilient Multicast and Unicast switch to switch connections on the prevailing network bandwidth option(s).

<sup>10</sup>Non-Trading participants requiring cross-connects to any other party, except Carriers, must install dual, resilient connections. Trading Participants are only required to install single non-resilient connections.

<sup>11</sup>The Exchange Hosting 1Mb VPN connectivity is provided as an emergency or back-up connection and should not form a core part of a customer's network. The connection is not managed and is subject to availability.

<sup>12</sup>Expedited Remote Hands tasks are activities that are requested to be completed with less than the standard 24-hour notice period. Where possible the Exchange will complete these tasks subject to resource availability and other submitted tasks.

<sup>13</sup> The Minimum Service Terms for the Service Line Items are

- Active Cabinet Licence / Power – 12mths or 24months as per the relevant Service Order;
- Reserve Cabinet – 12months
- Market Access Port Connectivity – 12months
- Time Feed Services – 12months
- Telco Carrier Cross-connect – 3months
- Inter-Participant Cross-connect – 3months
