ISM Rulebook (effective 1 January 2021)

Introduction and scope

International Securities Market (**ISM**) of London Stock Exchange (the **Exchange**) is a specialist market aimed at professional investors (namely, investors who are particularly knowledgeable in investment matters – which shall be deemed to include, without limitation, professional clients and eligible counterparties as defined in the **FCA Handbook**). It is tailored to **issuers** of non-equity **Securities** that, because of their nature, are normally bought and traded only by professional investors. **ISM** is a **UK MTF** and is operated by the **Exchange**.

These rules apply to an **issuer** seeking admission to trading of non-equity **Securities**, or whose non-equity **Securities** are admitted to trading, on **ISM**. A simplified disclosure regime applies to certain categories of **issuer**. **Admission particulars** are not required for **Exempt Issuers**.

Admission of **Securities** to trading on **ISM** is determined by the **Exchange**. Approval of an application for admission of **Securities** to trading on **ISM** is not an approval or verification by the **Exchange** of the **admission particulars**, or any other disclosure document, relating to the **Securities** or of the suitability of the **issuer** to issue the **Securities** admitted to trading.

Securities admitted to trading on **ISM** are not admitted to the Official List maintained by the **FCA**.

Applications for admission to trading should be made to the **Exchange**. An **issuer** should consult with the **Exchange** at the earliest possible stage if it is in doubt about how the rules apply in a particular situation or to particular **Securities** or considers that there is a legitimate basis to request the **Exchange** to modify or dispense with a rule. **Issuers** should contact the **Exchange** at ISM@lseg.com or at Primary Market Regulation, London Stock Exchange plc, 10 Paternoster Square, London EC4M 7LS.

Where UK legislative or regulatory references are used in these rules, they should be read as referring to the law or regulation in force from time to time.

For the avoidance of doubt reference to any EU regulation as applied in the **UK** means a reference to the relevant regulation as it is applied in the **UK** pursuant to the European Union (Withdrawal) Act 2018 and regulations made pursuant to the Act following IP Completion Day (as defined in the European Union (Withdrawal Agreement) Act 2020).

Section 1 – General requirements for admission to trading

1. Specialist securities

The **Securities** to be admitted to trading must be **specialist securities**.

2. No conditional admission

The **Exchange** is not able to make the admission of **Securities** to trading conditional on any event. The **Exchange** may, in particular cases, seek confirmation from an **issuer** before the admission of **Securities** that the admission does not purport to be conditional on any matter.

3. Incorporation

An **issuer** must be duly incorporated or otherwise validly established according to the relevant laws of its place of incorporation or establishment and operating in conformity with its constitutional documents.

4. Validity

The **Securities** to be admitted to trading must conform with the law of the **issuer's** place of incorporation, be duly authorised according to the requirements of the **issuer's** constitutional documents and have any necessary statutory or other consents.

5. Transferability

Securities to be admitted to trading must be freely transferable. The **Exchange** may allow partly paid **Securities** to be admitted to trading if it is satisfied that their transferability is not restricted and investors have been provided with appropriate information to enable dealings in the **Securities** to take place on an open and proper basis.

6. Whole class to be admitted to trading

An application for admission to trading of **Securities** of any class must, if no **Securities** of that class are already admitted to trading, relate to all **Securities** of that class issued or proposed to be issued and after admission relate to all further **Securities** of that class issued or proposed to be issued which are intended to be fungible with existing **Securities**.

7. Market capitalisation

The expected aggregate market value of **Securities** to be admitted to trading must be at least £200,000 or its equivalent in another currency except where **Securities** of the same class are already listed. The **Exchange** may admit **Securities** of a lower value if satisfied that there will be an adequate market for the **Securities** concerned.

8. Financial information

- 8.1 Save as provided for in paragraphs 8.2 and 8.3 below, or in respect of an **issuer** of **asset-backed securities** or **insurance linked securities**, an **issuer** must have published audited financial statements that cover at least the last two years.
- 8.2 The **Exchange** may accept financial statements relating to a period shorter than two years if it is satisfied that:
- (1) users of **ISM** have the necessary information available to arrive at an informed judgment concerning the **issuer** and the **Securities** for which admission to trading is sought; or
 - (2) where the application is in respect of guaranteed **Securities**, the guarantor has published financial statements which cover at least two years.
- 8.3 In exceptional circumstances, the **Exchange** may waive the requirement for financial statements. The **Exchange** must be consulted at an early stage.

9. Refusal of applications

- 9.1 The **Exchange** may refuse an application for admission to trading if it considers that:
- (1) the **issuer's** situation is such that admission to trading of the **Securities** may be detrimental to the orderly operation of **ISM** or to the integrity or reputation of the **Exchange**; or
 - (2) the **issuer** does not comply or will not comply with these rules or with any special requirements imposed upon the **issuer** by the **Exchange**.
- 9.2 Without prejudice to paragraph 9.1 above, the **Exchange** retains sole discretion to refuse an application for admission to trading of any **Securities** if it considers that the **Securities** are better suited to another of the **Exchange's** markets or segments.

To be admitted to trading, **Securities** must be eligible for electronic settlement.

To be admitted to trading, the **admission particulars** for the **Securities** must have been submitted to the **Exchange** and, except in the case of **insurance linked securities**, **Published**.

In exceptional circumstances, the **Exchange** may dispense with this requirement if it is satisfied that holders of the **convertible securities** have at their disposal all the information necessary to form an opinion about the value of the underlying **Securities**.

An **issuer** seeking to have **insurance linked securities** admitted to trading must:

- (1) have permission under **FSMA** to carry on its activities relating to **insurance linked securities**; or
