

DigitalAssetClear

Mitigate risk and unlock the full potential of your digital asset derivatives in a safe, secure, regulated environment – underpinned by LCH’s trusted clearing infrastructure – with LCH DigitalAssetClear.

Why clear your digital asset derivatives?

Investor demand for safe access to digital asset derivatives is rising. But the lack of institutional credit and credit intermediation services, market friction, and unregulated crypto exchange technology and infrastructure have impeded the adoption and growth of digital asset derivatives.

With Bitcoin OTC volumes having reached significant levels, it seems natural that market participants would wish to turn to tried-and-tested traditional financial market infrastructures to provide greater risk management protections and prevent market contagion. This is driving a transition to regulated institutional-grade execution and clearing venues.

What is LCH DigitalAssetClear?

LCH DigitalAssetClear is our new fully-regulated, segregated clearing service for cash-settled Bitcoin index futures and options contracts traded on GFO-X – the UK’s first FCA-regulated, centrally-cleared multilateral trading facility (MTF) dedicated to digital asset futures and options.

Developed in partnership with GFO-X in close consultation with our market partners, LCH DigitalAssetClear allows institutional market participants to take on or hedge digital asset derivatives safely and securely. This is clearing the way for the market segment to fully develop and flourish.

Key benefits of digital asset derivatives clearing

Safe exposure to digital asset derivatives in a fully-regulated environment

Seamless connectivity to GFO-X

Trusted, leading clearing infrastructure

Financial and operational risk segregation, with a separate default fund dedicated to clearing digital asset derivatives

Risk mitigation, and settlement, netting and margin efficiencies
