

# Payments Manager

## Automate and improve your Payments workflow

Payments Manager is part of the AcadiaPlus Workflow suite of services. AcadiaPlus is a feature rich open platform for collateral, margin and risk mitigation serving Sell-side, Buy-side and Fund Administrators.

Payments Manager provides a standard message workflow, that has been designed and agreed by an industry working group, to bilaterally confirm many types of payments. It enables you to pair, match and finalize both parties' payment information efficiently, leveraging our intelligent matching engine.

Remove the reliance on email exchange and often lengthy, complicated dispute resolution by uploading your payment data and enabling Acadia to pair payments, highlight discrepancies and efficiently produce final payments for you and your counterparty.

Mismatches are quickly identified for user investigation and the comparison of details provided helps clients resolve differences quickly. We work closely with our clients to help reduce manual intervention, enabling a focus on exceptions.

Payments Manager supports multiple payment types including Trade payments, such as Swaps, and Securities Payments, such as Coupons and Principal & Interest. Acadia works with the industry via its working groups to continually improve and expand its usability.
