Overview

This document describes the structure of the Public Data Information supplied by CC&G to replicate the margin calculation. The Data Files are available in fixed record length and in XML Format.

How to connect to the FTP Server

- Connect to the http address ftp.ccg.it
- When requested, enter your identification code: User ID and Password

Identification code selects the environment used whether production or test. The system will automatically be positioned in the right folder where the files are available for download.

File naming and format

Files are enclosed in a compressed file named YYMMDDD.ZIP. File names are detailed in the following paragraphs.
