CC&G: release API 1.6.3

To: *BCS participants*
Priority: *Medium*
Topic: *Release API 1.6.3*

Dear customers,

Following the successful completion of beta test (carried out from the 3rd of February to 26th of March) we confirm the availability of the official release “BCS API ver. 1.6.3”.

The new package, on Windows and Linux version, is available at the following link:

<https://www.borsaitaliana.it/borsaitaliana/gestione-mercati/bcs-bitclearingstation/bcs.htm>

With the new release, the timeout of the requests has been extended in order to ensure compatibility with more dated applications.

Therefore, we highly recommend to download the new API version. For further assistance or with inquiries please contact:
