## 1. Documentation

### 1.1 This Guide

The purpose of this document is to provide an overview of the various product parameters required to enable customer connections to, and for interaction with, the Group Ticker Plant. This includes network topology information and replay and recovery parameters.

It will be updated and reissued when appropriate to do so.

### 1.2 Readership

This document is particularly relevant to technical teams within member firms, information vendors and other market participants who currently receive or are interested in receiving London Stock Exchange Group market data from the Group Ticker Plant.

When read in conjunction with other Group Ticker Plant documents it is intended to provide all required information to configure customer systems.

### 1.3 Document Series

This guide, **GTP004 – Parameters Guide**, forms part of the documentation library supporting those clients interacting with the Group Ticker Plant. For information, the full series of currently available documentation is outlined below:

- GTP001 – Product Guide;
- GTP002 – Technical Guide;
- GTP003 – Statistics Guide;
- GTP004 – Parameters Guide (this document);
- GTP005 – Testing Services Guide;
- GTP006 – External Sources Guide;
- GTP007 – GTP Lite Guide.
- GTP008 – Market Attributes Guide

Further documentation to support activities such as testing and displaying our data will be released in due course.
