LSEDM Equity Derivatives - BCS API CDS Enhancements

BCS API CDS Environment Enhancements

The purpose of this announcement is to inform customers that with effect from Tuesday 24 January 2017, the BCS API CDS environment will be running Recovery Simulation scenarios every Tuesday.

Two sessions will be available each Tuesday, the first starting at 10:00 London time and the second starting at 15:00 London time.

A newly updated version of the LSEDM706 – BITS Clearing system (BCS) is also available from the London Stock Exchange [website](#). This has been updated to reflect the scenarios in more detail in Section 10.2.

Further Information
