

London Stock Exchange Derivatives - Equity Derivatives

BCS GUI/API Enhancements Production Go-Live Monday 17 October 2016

The purpose of this announcement is to advise Members of the production go-live date and production go-live procedures for BCS GUI/API. As previously communicated for the recent Customer Dress Rehearsal, Members need to be aware of the following.

- The go-live date for this release is **Monday 17 October 2016**.
- Members must use the new version of the BCS GUI (Ver. 6.0.3) which is available for download from the London Stock Exchange [website](#).
- A newly updated version of the LSEDM102 – Connectivity Guide is also available from the London Stock Exchange [website](#). This has been updated to reflect the new BCS Production IP addresses and port details.
- Details of how to update the BCS GKApi.cfg configuration file can be found in the LSEDM705 –BCS User Guide found [here](#).
- Members are required to confirm their readiness for this upgrade by contacting their Technical Account Manager or the Technical Account Management team on +44 (0) 20 7797 3939 or londontam@lseg.com before the close of business on Wednesday 12 October 2016.

Further Information

If you require further information about this notice please contact the Technical Account Management team on +44 (0)20 7797 3939.
