## MARKET NOTICE 2013/41

### Turquoise Derivatives Pricing Changes

Please be advised that, effective 1<sup>st</sup> July 2013, Turquoise is introducing fee changes for all products on IOB and UK derivatives.

On Low Premium Options new fee structures are in place to improve the financial impact on trading. On Futures, Maker/Taker tariffs have been removed and will be replaced with a per contract fee. In addition, on screen trading is incentivised by applying a lower fee cap for these trades.

All price changes will be effective from 1<sup>st</sup> July 2013

This tariff schedule includes the fees that will be applied to UK Stock Options, after the initial fee holiday has ended.

Members are encouraged to ensure that all relevant parties of the organisation are made aware of these changes.

To access the new tariff schedule, please see the document attached, or click [here](#).

Best Regards
