MARKET NOTICE 2016/045

Fast Market on the Oslo Børs options

Due to expected increase in market volatility in relation to the United Kingdom European Union membership referendum, Oslo Børs has decided to implement “Fast market” rule regarding our Price Monitoring and Price Entry Tolerance regime. The limits in the Equity Market will be widened to allow for expected increase in market volatility. The threshold will be watched closely and may be changed intraday without any pre announcement.

Oslo Børs declares fast market in the derivatives market. Market Maker obligations are changed accordingly.
