## Trading AIM Securities on Turquoise

Effective 16 October 2017, Turquoise will admit for trading AIM SETS securities to the **Turquoise Lit™** and **Turquoise Plato™** Order Books.

Instruments being part of the FTSE AIM UK 50 and FTSE AIM UK 50 Reserve List traded on the London Stock Exchange SETS trading service and not subject to Minimum Quantity at Touch (MQAT) requirements will be admitted to trading.

This follows the designation of Turquoise as an AIM Secondary Market Registered Organisation (ASMRO), effective 16 October 2017, as per [the London Stock Exchange announcement of 13 October](#).

Clearing will follow Turquoise's interoperable model, with a choice of EuroCCP N.V., LCH.Clearnet Ltd and SIX x-clear for all instruments.

Details of securities available to trade can be found in the Turquoise instrument list: <http://www.lseg.com/documents/instrument-list.xls>.

To facilitate the trading of AIM securities on Turquoise, Rule 4.1 of the Turquoise Rule Book has been updated to reflect that equities traded on a trading venue in the EEA will be eligible for trading on Turquoise.

The revised Rule Book will be effective 16 October 2017 and will be available in the Document Library of the Turquoise website.

Best Regards,

Market Operations Team
