Trading Polish Securities on Turquoise

From 5 October 2015, Warsaw Stock Exchange WIG30 Index constituents will be available for trading on the Turquoise Integrated Order Book, with a choice of clearing between EuroCCP N.V. and LCH.Clearnet.

These securities are currently available in the Customer Development Service (CDS) environment for testing.

Customers that wish to confirm their clearing arrangements should contact the CCP, and advise Turquoise Market Operations of their clearing arrangements with the agreed effective date.
