Turquoise Block Discovery™ Go-live – 20 October 2014

Turquoise is pleased to inform customers that on **20 October 2014**, **Turquoise Block Discovery™** will be available in live Production. The date will remain subject to customer readiness.

Turquoise Block Discovery™ further enhances the Turquoise Midpoint Dark Book, facilitating the trading of larger “parent” or “block” orders by matching Block Indications, subject to a minimum size threshold. On identifying potential matches, **Turquoise Block Discovery™** will require participants to send firm qualifying block orders to **Turquoise Uncross™**, maximising available liquidity for customers of both services.

For a copy of the **Turquoise Block Discovery™** Trading Services Description, updated Turquoise Trading Services Description and updated Technical Specifications, please contact your Technical Account Manager directly or the Technical Account Management team on +44 (0) 20 7797 3939 or londontam@lseg.com.

Turquoise Block Discovery™ is already available within the Customer Development Service (CDS) environment for customer testing. Customers will be expected to certify their software to use the new service.

Best Regards
