## ETF/ETC Instruments - Interoperability

Following receipt of regulatory approval, customers can now choose CCPs for ETF and ETC instruments.

Effective 21 July 2014, LCH.Clearnet Ltd and SIX x-clear will interoperate with EuroCCP N.V.

Customers that wish to change their clearing arrangements should contact the CCP, who will in turn advise Turquoise Market Operations of the revised ETF and ETC clearing arrangement with the agreed effective date.

In addition to the above, Turquoise will also be admitting to trading 926 additional ETF instruments effective 21 July 2014. Details of these instruments can be found alongside this notice.

Best Regards
