Turquoise Plato Block Discovery™ - Publishing volumes on Bloomberg IOIA Trade Adverts

From Monday 25 September 2017, **Turquoise Plato Block Discovery™** will periodically publish traded volumes on an aggregated basis on the Trade Adverts section of the Bloomberg IOIA page for each instrument traded.

Aggregated volumes will be updated twice per day – around midday and 3pm UK Time. ‘TPBD’ will be used as the four-letter acronym to distinguish the venue, and volumes will be reported in the Crossed column to distinguish these from broker-advertised volumes appearing in the Traded column.

Best Regards
