
CC&G Market Notice

09th November 2018

BCS v6.0.0 – Go live confirmation

To: *All CC&G Members*

Priority: *Medium*

Dear Clients,

we refer to the Release Note dated 27th June 2018 (version 1.0) announcing the implementation of the Clearing System – BCS version 6.0.0, and the Market Notice dated 12th October 2018 announcing the opening of CDS environment from 16th October 2018 to confirm the go live date of the BCS v6.0.0 on 3rd December 2018.

The new version includes the following main functionalities:

- International Give-up (New attribute introduced);
- Display of Participant and Trading Client list (New values assignment);
- Real time margin tool (Bond section portfolio margin implementation);
- Real time margin tool (Enhancement on trade and position limit controls);
- Client code change function (T+5 extent).

Please refer to the Release notes dated 27th June 2018 (1.0) and subsequent version dated 3rd August 2018 (1.1) published on CC&G web site, page Initiatives and News, to find more details on the new added functionalities.

The CDS environment will be available until the go-live date. For the BCS test users please contact the Technical Account Management Team at the email address Clients-Services@lseg.com.

Please note that the new version of the API is not mandatory and backward compatibility with the old version will be maintained. However test of interconnected application with API and migration to the new GUI are recommended.
