1 Pricing packages and classification methods

For the MTA / AIM Italia / ETFplus / ATFund / SeDeX / MOT and ExtraMOT (thereafter “Fixed Income markets”) and for the purpose of applying this pricelist, two pricing options have been determined for each market: Package 1 and Package 2.

Differences according to volume category or pricing package do not apply to IDEX, AGREX, MIV, TAH and Blt GEM markets/segments, for RFQ function and for Negotiated Transactions (previously “internal cross” and “committed cross”) of ETFplus and Fixed Income markets.

The choice of pricing packages shall be communicated by the individual intermediary as per the method outlined in the General Conditions. The choice shall be indicated for each market on which the intermediary is admitted for trading. The chosen package can be different for each market. For this purpose, MTA/AIM Italia and MOT/ExtraMOT, ETFplus/ATFund¹ are considered as single markets.

Intermediaries wishing to choose a different pricing package from the one previously indicated shall submit a request 15 days prior to the start of each quarter. For quarter we intend the span of time from 1 January to 31 March, 1 April to 30 June, from 1st July to 30 September and from 1 October to 31 December of each year (fiscal year).

The request² shall be submitted as per the methods outlined in the General Conditions. In such case, the date from which the new pricing package will be applied will be the first day of the next quarterly period.

2 Volume Category

Where applicable, the category is determined every month by the number of executed orders for the market different from IDEM / contracts for IDEM market, billed in that specific month. For ETFplus, the following executions do not contribute to the calculation of the volume category:

- orders executed through RFQ functionality,
- Negotiated Transactions.

3 Application of unit transaction cost

For markets different from IDEM, trading fees are applied to each executed order, meaning:

- all trades executed on the same day and originated by a single order entered by the member for MTA / AIM Italia markets and Blt GEM and TAH segments;
- all trades executed on the same day, at the same price and originated by a single order entered by the member for the other markets different from IDEM.

Modified orders which lose their priority originate different executed orders. The charge for each executed order is by reference to the cumulative number of orders executed in each month.

¹ Package 1 of ETFplus/ATFund markets will apply to intermediaries, members of ATFund but not members of ETFplus.

² It is possible to submit up to two requests in a year (1 January - 31 December).

An executed order is:

- Passive, when the first execution of the order is passive;
- Aggressive, when the first execution of the order is aggressive;
- Executed in auction, when first execution of the order is in auction.

The value of executed orders traded in a currency different from euro is converted using exchange rates published by the European Central Bank (ECB) on the day of TARGET open preceding the execution of the order.

For IDEM Equity segment, the trading fee is charged per standard contract (lot) traded. For FTSE MIB Index Futures, the charge for each standard contract is by reference to the cumulative number of standard contracts executed in each month.

For IDEX segment the trading fee is charged per MWh (Megawatt / hour) traded.

For AGREX segment the trading fee is charged per metric ton of durum wheat traded.

The trading fee includes the cost for concluding a contract on the market and the fee for the related pre-settlement service (X-TRM) (where applicable).

4 Invoicing and payment instructions

The annual market membership fee will be charged at the beginning of each year and is not calculated on a pro rata basis.

The fees for identification codes of the intermediary used by Borsa Italiana for the configuration of trading platforms, for logical linkups, for the access to IDEX through the link to the Trayport's GV Portal, for the access through Service Providers as well as the subscription fee to individual markets are charged on a monthly basis³.

The fee to access REMIT Data is charged at the beginning of each year and, in the year of activation, the fee is calculated on a pro-rata basis starting from the first month of subscription to the service.

The fees for the connectivity services to the markets are charged quarterly in advance, at the beginning of each quarter (January, April, July and October).

The quarterly fee is calculated pro-rata on the basis of the annual fee and starts to be charged as from the month of set-up date.

In case of termination of the connectivity, the Client shall pay the fees for the entire quarter in which such termination has occurred, it being expressly excluded any pro-rata refund for the period in which the connectivity has not been used. If termination is to occur during the first year from the service set-up, the Client shall pay the entire fees for the first year (12 months from the set-up date).

All the fees described in this Price List have to be paid by direct debit from a bank current account, value dated 30 days from the date of issue of the invoice issued by Borsa Italiana.

Incentives for Mifid II Market Makers will be calculated from January 2018 and will start to be paid from April 2018.

³ Monthly fees are respectively defined on the basis of enabled identification codes, linkups, read-write users, accesses through Service Providers and subscription to individual markets as of the 15th of each month.

To this end, within 10 (ten) days from the communication sent by Borsa Italiana of the receipt of the Request for Service, the Party must instruct its bank to pay invoices issued by Borsa Italiana automatically.

Clients, not choosing the direct debit, must pay their fees by bank credit transfers within 30 days of the date of issue of the invoice to the current account of Borsa Italiana S.p.A. at Deutsche Bank S.p.A. (branch 460 - Via San Prospero 2, 20121 Milano) - account number 000000770111 ABI 03104, CAB 01600 IBAN IT98Y0310401600000000770111, SWIFT ADDRESS DEUTITMMIL.

The aforesaid fees, except when otherwise indicated, are exempt from VAT pursuant to Article 10(4) of Presidential Decree 633 of 26 October 1972 and subsequent amendments and Ministerial Resolutions 323352 of 7 April 1986 and 150/E of 1 October 1998. It is understood that where such exemption is terminated the amount of the fees will be redetermined by applying VAT thereto at the rates in force.

7 Fees for the supply and use of the market access infrastructure

7.1 LOGICAL CONNECTIVITY⁷

7.1.1 Comp IDs and Connections to the Millennium - IT trading platform

Intermediaries are granted the following number of Comp IDs:

- 1 Base Front Office CompID per each segment/market/group of markets to which the intermediary has access:
 - MTA/MIV
 - AIM Italia
 - Fixed Income - Domestic settlement (DM)
 - Fixed Income - ICSD settlement (EM)
 - ETFplus
 - SeDeX – Domestic Segment
 - SeDeX – ICSD Segment
 - TAH
 - Blt GEM
 - ATFund
- 1 Back Office CompID, accessing all segments/markets/group of markets above.

Specialists, appointed specialists, bid specialists, appointed intermediaries and Advanced Liquidity Providers are also granted a number of transactions per second (“tps”) which depends on the market and on the number of instruments on which they undertake to support liquidity. These transactions shall be used exclusively for the liquidity support activity.

In addition, intermediaries authorised to respond to RFQs are granted a number of tps which depends on the market and on the number of instruments on which they are authorised to respond. The granted linkups for RFQ Only intermediaries include a Base Front Office CompID or an higher number of tps if recognised according to the activity of intermediary authorised to respond.

Fees for additional items:

- | | |
|---|--------------------|
| • Standard Front Office CompID: | 375 €/month/each |
| • Advance Front Office CompID: | 1,125 €/month/each |
| • Double Advance Front Office CompID: | 2,250 €/month/each |
| • Base Supervisor CompID Package ⁸ (max 1): | 550 €/month |
| • Supervisor CompID: | 425 €/month/each |
| • Back-Office CompID: | 125 €/month/each |
| • Sponsored Back-Office CompID ⁹ : | 500 €/month/each |
| • Site receiving the GTP market data feed ¹⁰ : | 375 €/month/each |

⁷ For details on the capacity of granted and additional items, please refer to the Guide to the Parameters for trading on the regulated markets organised and managed by Borsa Italiana.

⁸ The package includes a Base Supervisor CompID per each segment / market / group of markets to which the intermediary has access.

⁹ The fee for Sponsored Back Office CompID provides access to all Sponsored Access Risk Controls described in the “Guide to Sponsored Access for Blt cash markets”. The fee is applied to each Sponsored Access back Office CompID with or without “Cancel on drop Copy Disconnect” functionalities.

¹⁰ Site with direct connection to the market (Blt Network, Extranet or Co-Location), owned by the intermediary or a Service Provider, through which the intermediary receives the market data feed the GTP protocol.

Per each segment/market/group of markets, the intermediary can receive a 200 €/month reduction, when choosing a Standard or Advance CompID instead of the Base Front Office CompID.

In order to apply the fee for Standard Front Office CompIDs, Advance Front Office CompIDs and Supervisory CompIDs, each of the following groups: MTA/MIV/AIM Italia, Fixed Income - Domestic settlement (DM)/Fixed Income - ICSD settlement (EM), TAH/Bit GEM and SeDeX - Domestic Segment/SeDeX - ICSD Segment, ETFplus/ATFund is considered as one group of markets.

7.1.2 Users and Connections to the SOLA® trading platform

The intermediaries are granted the following number of users and connections to access the IDEM market:

- 1 Standard Front-Office User
- 1 HSVF TCP Connection¹¹

Market makers (Primary Market Makers, Designated Market Makers, Extended Market Makers, Responding Market Makers and Liquidity Providers) and specialists (Primary Specialist, Designated Specialist, Extended Specialist, Responding Specialist and Liquidity Provider Specialist) are also granted:

- a number of Bulk Quotes transactions per second (BQ TPS) calculated according to the number of instruments on which the market maker / specialist has undertaken quoting obligations. BQ TPS can be allocated by the market maker/specialist on one or more Base Quoting Users;
- Panic Quotes Users (upon Intermediary request) with a number of transactions per second equal to the number of BQ TPS.

Fees for additional items:

- | | |
|--|--------------------|
| • Standard Front-Office User: | 550 €/month/each |
| • Advanced Front-Office User: | 1,650 €/month/each |
| • Set of Additional Quoting TPS ¹² : | 550€/month/each |
| • HSVF TCP Connections ¹³ : | 125 €/month/each |
| • Site enabled to receive the HSVF UDP service ¹⁴ : | 375 €/month/ each |
| • Drop Copy User: | 125 €/month/each |
| • Risk Manager User ¹⁵ : | 125 €/month/each |

7.1.3 GTP Comp IDs

Intermediaries are granted:

- 1 GTP lite Comp ID, for markets different from IDEM;
- 1 GTP lite Comp IDs, for IDEM market.

The fee for each additional GTP lite Comp ID is 125 €/month.

¹¹ For the Information received through BTS, the number of HSVF TCP Connections is set equal to the number of SOLA® Front Office Users, accessing the SOLA® trading platform through BTS.

¹² The total number of BQ TPS (granted and additional ones) can be allocated by the market maker/specialist to one or more Quoting Users; the fee is also applied if the market maker/specialist asks for adding the additional BQ TPS to a Quoting User which is already active.

¹³ For the Information received through BTS, the number of HSVF TCP Connections is set equal to the number of SOLA® Front Office Users, that access the SOLA® trading platform through BTS.

¹⁴ The fee will become effective with the introduction of the HSVF UDP service.

¹⁵ Each intermediary might request 1 Risk Manager User.<

7.2 Access to IDEX through the link to Trayport's GV Portal (hereinafter "Trayport link")

The fees for the use of the Trayport link for accessing the IDEX market include the following 2 components:

- A fixed fee, including the read only users for receiving the IDEX market data: 300 €/month.
- A fee for each trading read-write user enabled to enter, modify and delete orders on the IDEX market: 500 €/month.

¹⁶ Installation fees are applied in case of set-up, move, upgrade and downgrade of the connectivity services to the markets.

¹⁷ VPN Internet connection. Internet connection is at the intermediary's expense.

¹⁸ VPN Internet connection as back-up. Internet connection is at the intermediary's expense.

¹⁹ The 10Mb non-resilient option is available only for back-up sites of resilient primary sites or sites in hosting.

²⁰ The 100Mb non-resilient option is available only for back-up sites of resilient primary sites or sites in hosting.

The above fees refer to lines installed at on-sites²¹. Fees for lines to be installed at off-net sites will be determined by Borsa Italiana according to objective and non-discriminatory criteria²².

Resilient connectivity services include a pair of lines provided by two different carriers. Non-resilient connectivity services include one line only.

CMC Service – Customer Managed Connectivity	Installation Fee¹⁶	Annual Fee
VPN LAN to LAN		5,000€/year
2Mb non-resilient	2,500€	12,000€/year

10Gb resilient	15,000€	65,000€/year

The above fees refer to connectivity access ports on Borsa Italiana network equipment at the Exchange's primary and/or secondary data centres. Clients connect to these ports using Accredited Connectivity Partners (ACPs).

Resilient connectivity includes a pair of access ports. Non-resilient connectivity includes one port only.

The fees defined in this paragraph 7.3 are not due if the intermediary uses a network infrastructure already paid to the London Stock Exchange plc, or hosting services offered by the London Stock Exchange Group.

7.4 Access to markets through a Service Provider

In case of access through a Service Provider, in addition to the fees defined in paragraph 7.1, the following fees are due:

²¹ Borsa Italiana reserves the right to pass through to the Client additional expenses possibly required to deliver the service.

²² According to technical feasibility, connectivity services might be offered at different bandwidths for off-net sites.

7.4.1 Markets different from IDEM Market

1,200 €/year per each access through a Service Provider.

7.4.2 IDEM Market

2,000 €/year per each access through a Service Provider²³.

²³ The fee is not applied to IDEX-only access through a Service Provider.
