T2S Release 5.0: CR-722

Updated NRO technical documentation with track changes

For the attention of: DCPs
Re: T2S release 5.0: CR-722
Updated NRO technical documentation with
track changes

Dear Client,

With respect to ON No. 3 of 19 January 2021 and the CR-722 "Upgrade of non-repudiation for U2A: GoSign Desktop", which forms part of R5.0, please note that the European Central Bank has published the NRO technical documentation updated with track changes.

The European Central Bank has also provided the following instructions:

➢ *As regards compatibility with Citrix solutions, the following general statements remain valid:*

- *support is ensured for qualified configurations (as described in 2.6.3)*

- *4B will provide support to the maximum extent possible for alternative configurations (e.g. Citrix solutions as required by SWIFT CSP)*

- *The Ascertia applet can run on CITRIX terminal servers and therefore on the Citrix Virtual Desktop solution*

- *Ascertia GoSign> Desktop client can run on Citrix Virtual Desktop solution (only).*

Please be also informed that any additions to the above documentation will be promptly made available by Monte Titoli.
