1.0 Introduction

1.1 Purpose

The purpose of this document is to provide customers with a detailed overview of the Certification service across the eligible London Stock Exchange Group venues London Stock Exchange and Borsa Italiana.

The SAIL Certification Test Cases Guide provides test cases for participants and independent software vendors for the certification of their application in order to interface with SOLA using the native SOLA Access Information Language (SAIL) Protocol

1.2 Readership

The target audience for these publications is anyone working at either the business or Information Technology (IT) level of an organisation interested in certification for the SOLA trading platform.

1.3 Document History

This document has been through the following iterations:

Issue	Date	Description
1.0	30/09/2013	Initial Issue
1.1	08/07/2015	
1.2	16/03/2016	Annual Certification procedure and contacts
1.3	23/01/2017	Certification Test Scenarios: 4.7.34; 4.9.36; 4.17.3; 4.19; 4.20.
1.4	15/03/2017	Review Certification Test Scenarios
1.5	16/08/2017	Review Certification Test Scenarios New Test cases: ORD-29, ALR-02, TRD04, TRD-05 Certification policy updated New Passport policy
1.6	05/08/2017	Certification policy updated Review Certification Test Scenarios New Test cases: ORD-30, ORD-31, BUQ-04a, BUQ-04b, BUQ-04c
1.7	12/03/2018	Review of test cases ORD-24 and ORD-26 ORD-25 and ORD-27 have been modified according to the new Deferred Publication functionality New test case: BO-06
1.8	26/06/2019	Rebranding
1.9	26/06/2019	SOLA Version update
2.0	16/09/2019	SOLA Version update

In subsequent issues, where amendments have been made to the previous version, these changes will be identified using a series of side bars as illustrated opposite.

1.4 Contacts

Please contact Market Access Italy if you have any functional questions about SOLA platform functionalities detailed in this document.

- Phone: 0039 02 72426668
- Email: market-access@borsaitaliana.it

2.0 Certification Programme

The Certification Programme is based on regulatory compliance supporting interoperability against the three eligible London Stock Exchange Group (LSEG) venues. The current eligible venues are London Stock Exchange and Borsa Italiana.

The following Certification Programme applies to anyone connecting a software application to an LSEG *Live Service*. A Live service is any production Trading or Information Services environment across LSEG.

Under EU and national regulatory requirements (including the ESMA Guidelines on Systems and Controls in a Highly Automated Trading Environment) the eligible LSEG venues are required to have procedures and arrangements to ensure fair and orderly trading. This includes requirements for physical and electronic security to protect systems from misuse or unauthorised access and to ensure the integrity of the data that is part of or passes through the systems. The eligible venues are required to undertake standardised certification testing to ensure that members and participants systems used to access the venues have a minimum level of functionality that is compatible with fair and orderly trading on those venues.

Customer non-compliance with this certification programme may constitute a breach of the eligible venue terms and conditions or rules.

2.1 Access to the Live Service

Access to the LSEG Live Services is permitted only when a customer's software application has been certified as being fit for purpose.

2.2 Software Identification

All customer software must be identifiable by a software name and version number. Software applications that do not have both a name and version number will not be certified. Certification is limited to a single version of the named software.

2.3 Mandatory Certification Requirements

Customer confirms that the certified trading application is fully conformant to all aspects of the Technical Specifications. Customer also confirms that its application has in place the following controls:

- ✓ limits on transaction per second sent by Trading sessions
- ✓ limits on order quantity and order countervalue
- ✓ order and trade price limits against static and dynamic controls prices

2.4 Certification Policy

Customers are required to certify or re-certify their applications under the following conditions:

- ✓ Prior to use the application in the live environment (for new applications);
- ✓ The customer modifies the software in any way that directly impacts LSEG interfaces. This includes but is not limited to updates to Gateways, Order Management, Execution Management and Quote Management Software;
- ✓ The Exchange upgrades its production environment to a later version of software;
- ✓ The customer is requested to re-certify their application by the relevant venue.

If no certifications have been performed during a solar year (because any of the previous conditions occurred), the customer will be asked to self-certify (by sending an email to the relevant Trading Venue team that look after certifications) that no changes have been applied to the application since the last certification.

2.5 Test Scenario Exception Policy

Customers only need to complete the test cases relating to the functionalities that they will use on the Live Services. If a customer's application does not support the functionality described in a particular test scenario and they do not intend to complete the scenario during the test, this must be agreed before the start of the certification test and reported in the certification report.

2.6 Passport across LSEG Venues

The Group is pleased to confirm that upon successful certification against one of the venues IDEM, CurveGlobal markets Equity Derivatives or Interest Rate Derivatives, the certified application will be permitted to access all SOLA Production systems – London and Milan, according with the membership agreement currently in place.

However, please be aware that in order for the passport to be applicable, the certified functionalities must be the same across all the venues where the customer wishes to connect to with the same application software.

2.7 Non-Conformant Behaviour on the Live Service

Any non-conformant behaviour by a customer's software application on the Live Services may lead to the software application being disconnected and not re-connected until it has been re-certified and the non-conformant behaviour corrected.

2.8 Self Certification Email

If no certifications have been performed during a solar year (because any of the conditions reported in §2.4 occurred), the customer will be asked to self-certify (by sending an email) that no changes have been applied to the application since the last certification.

Email confirmation should be sent to Market-access@borsaitaliana.it

2.9 Test Charges

The published venue specific Certification charges apply to all certification testing regardless of the test being assisted or not.

3.0 Certification Process

The Certification Process is an integral part of the Certification Programme.

Mandatory testing will be required for all applications that wish to connect to the production environment and mandatory functions will need to be tested in order to confirm conformant behaviour.

Customers should consider their software application's 'production ready' before attempting the test. Customers should also read and familiarise themselves with this document and the Market and Product Specific Testing documents. These documents contain important guidance that must be read before completing the certification process. When ready to take the test, customers should complete the following steps:

- Customers should contact **Market Access Italy** to book a certification test slot providing the Software name, version and gateway interfaces.
- The Market Access team will forward the relevant Certification Test Report to the customer.

Before Taking the Test

The Market Access Italy team will be available to assist participants in completing part of their certification test by performing both mandatory and optional functions.

Customers must identify the venue and the test scenarios supported by their application, by ticking the relevant boxes on the Certification Test Report. The report form must then be sent to: Market-access@borsaitaliana.it

This is a formal record of the software application that is being certified.

Customers should save a copy of the test report as they will be required to use it during the test to record their test results.

During the Test

Customers should complete the full set of uncoordinated test cycles described in Section 4 and inform Market Access Italy when this has been completed. If required some limited support can be provided during this phase.

Customers should record the test results on the Full Certification Test Report using the test procedure shown at the start of section 4. Customers are required to complete all test scenarios previously marked on the Full Certification Test Report within a trading day. If a customer does not complete a pre-agreed test scenario, the test will fail.

When all of the uncoordinated test scenarios have been completed, the customer must then complete a set of coordinated test scenarios, assisted by a tester.

The customer can repeat this part as many times as necessary, however additional test sessions may have to be booked if the testing exceeds two hours.

When all test scenarios have been completed, the customer should email the completed Certification Test Report to the tester. The email should be addressed to Market-access@borsaitaliana.it

After the Test

After the test the tester will check the details on the completed Full Certification Test Report and review the log files for the completed test scenarios. A report is generated detailing how the customer's application has performed during the test. If no re-testing is required, the report will be sent to the customer to sign off the application as fit for purpose and ready for production access.

The following items are checked:

- The functional behaviour and message sequencing in each scenario
- If the session was maintained for the entire period or if it dropped
- If any errors were produced over the time period

If multiple interfaces were included in the test, the results are concatenated into a single report.

The report will be run specifying a time ranged limited to a single day.

If the customer is required to repeat any of the testing they should do so within 24 hours of the original test.

By returning the signed copy of the Full Certification Test Report the customer is confirming that their application is fully conformant to all aspects of the SOLA Platform Technical Specifications and technically behaves as described in the guidance given in the technical specification.

4.0 Certification Test Scenarios

4.1 Test Procedure

Before proceeding with the certification test, customers must send the Certification Report to market-access@borsaitaliana.it and ask for an available date to schedule the conformance test session.

The certification report must contain the following information:

- Software name, version and gateway interfaces
- which functionalities are supported by the software
- the Venue where the test will be run and the Venue(s) the software connects to

Customers must perform all of the steps in each of the test scenarios reported in this document and record the results in the relevant sections of the Test Report.

A Certification report will be run after the customer has confirmed a successful run of their application on the CDS.

The report will extract all the relevant functions performed by the application and presented them in a format to be reviewed by the testing team to confirm a pass or fail.

Prior to the report being run the customer will be required to confirm the **venue**, the **gateway interfaces** they are certifying and the **userIDs** they are using for each gateway. This will be detailed in the supporting certification report (detailed below) submitted by the customer. The reporting tool will use this information to extract all behaviour for a given time period.

Considerations for the report are listed below.

1. The report will be run against any of the interfaces at once or against each separate interface individually depending on the customer application.
2. The report will be run specifying a time range limited to a single day.
3. The report will extract all message interface behaviour and represent this in a readable format in order to identify a successful set of functional testing.
4. The report will identify if the session was maintained for the entire period or if it dropped.
5. The report will check for any and all errors produced over the time period.
6. The report will be sent to the customer to sign off the application as fit for purpose and ready for production access.
7. The customer is responsible for any information declared on the signed-off Certification Test Report.

4.2 Submitting execution report and notifying result

The Customer has to run the Self Certification tests (not coordinated), the Certification Report tests (coordinated) in coordination with the testing team and mark the result of test cases on Certification Report.

At the end of the Self Certification and Certification Session the Customer should consolidate the Certification Report and send a copy of it to the testing team at Market-access@borsaitaliana.it

The testing team will verify the reports within 1-3 business days.

The testing team will then send back the result of the test (PASS or FAIL) and the Certification Report for final customer sign-off.

Final sign off by the customer should be sent to Market-access@borsaitaliana.it.

4.3 Certification Instruments

Instruments involved in the various certification test cases are identified as INST1 to INST22. These symbols may refer to any instrument available in the SOLA test environment. According to the client requirements, the list of instruments to be used may either be formally defined prior to the certification or "on the fly" as the certification goes.

Symbols GRP1 and GRP2 may refer to any instrument group available in the SOLA test environment. Symbol GRP1 may refer to any strategy instrument group. As for instruments, the list of groups to be used may either be formally defined prior to the certification or "on the fly" as the certification goes, in accordance with the client's requirements

The price and quantity specified in the test case description are indicative.

Customer must follow the prices and quantities accepted for the instrument on which it operates

4.4 Terminology

Term	Definition
Client	Refers to a computer system able to interact with the SOLA trading platform and to support the specific range of functionalities required by the firm's trading activities.
Instrument	A specific tradable option or future or strategy. For options, there are two instruments for each underlying, expiry month and strike price combination: one put and one call.
Instrument group	Refers to all instruments with the same underlying.

4.5 Technical Test Cases

4.5.1 Establishing a SAIL session

ID #: TEC-01	Type: Technical	Requirement: Mandatory	Co-ordinated Test: N
Description: Establishing the first SAIL connection of a trading session.			
Comments: First Time User Connection (Message Type TC).			
Prerequisites			
None.			
#	Test Steps	Expected Results	
		Trading Engine Responses (SAIL)	Market Information (HSVF)
1	Client: Connects to SOLA. Sends a TC message. [Exchange Message ID: 0]	Connection established. Sends a TK message [User sequence ID: 0]	
2		Sends a Heartbeat message question. Sends a TH message	
3	Client: Sends a Heartbeat response within the specified timeframe [Inactivity Interval] value sent in the connection message (TC). Sends a TI message		

4.5.2 Terminating a SAIL session

ID #: TEC-02		Type: Technical	Requirement: Mandatory	Co-ordinated Test: N
Description: Terminating a SAIL session				
Comments: User's Disconnection Request (Message Type TD)				
Prerequisites				
Execution of test case TEC-01				
#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	Client: Disconnects from SOLA. Sends a TD message	Connection is terminated. Sends a TL message		

4.5.3 Restarting a SAIL session

ID #: TEC-03		Type: Technical	Requirement: Mandatory	Co-ordinated Test: N
Description: User Reconnection during the session – Retransmission from next message.				
Comments: User Reconnection (Message Type TC)				
Prerequisites				
Execution of test cases TEC-01 and TEC-02				
#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	Client: Reconnects to SOLA. Sends a TC message with a blank Exchange Message ID: [Exchange message ID: " "]	Sends an arbitrary number of messages and the connection is re-established. Sends a TK message: [User sequence ID != next expected User sequence ID]		

4.5.4 Disconnection Instruction Management – Exchange Disconnection

ID #: TEC-04		Type: Technical	Requirement: Optional	Co-ordinated Test: N
Description: Disconnection Instruction Management – Disconnection by Exchange; outstanding quotes are cancelled.				
Comments: None.				
Prerequisites				
None.				
#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	<p><u>Client:</u> Connects to SOLA.</p> <p>Sends a TC message:</p> <p>[Exchange Message ID: 0]</p> <p>[Inactivity Interval: 1]</p>	<p>Connection established.</p> <p>Sends a TK message</p>		
2	<p><u>Client:</u> Active Y(ON)</p>			
3	<p><u>Client:</u> Specifies disconnection instructions.</p> <p>Sends a TA message:</p> <p>[Disconnection Instruction: Q]</p>	<p>Disconnection Instruction is accepted.</p> <p>Sends a TM message</p>		
4	<p><u>Client:</u> Sends a few quotes.</p> <p>Sends several Q<i> messages</p>	<p>Quotes are accepted.</p> <p>Sends several LA messages</p>	<p>Quote or Market Depth sent.</p> <p>Several /FFF or H/HF messages are sent.</p> <p>For strategy: Several FS or HS message are sent</p>	
5	<p><u>Client:</u> Stops flow of client messages for longer than the “Inactivity Interval” period defined in the TC message of this connection.</p>	<p>SOLA disconnects client and cancels all outstanding quotes.</p>	<p>Quote or Market Depth sent.</p> <p>Several F/FF or H/HF messages are sent.</p> <p>For strategy: Several FS or HS message are sent</p>	
6	<p><u>Client:</u> Reconnects and receives missed messages.</p> <p>Sends a TC message:</p> <p>[Exchange message ID: “ ”]</p>	<p>Connection accepted.</p> <p>Sends a TK message</p> <p>Quotes cancellation notice is sent.</p> <p>Sends an KG message</p>		

4.5.5 Disconnection Instructions Management – Client Disconnection

ID #: TEC-05	Type: Technical	Requirement: Optional	Co-ordinated Test: N
Description: Disconnection Instruction Management – Disconnection by Client; outstanding quotes are cancelled.			
Comments: None.			
Prerequisites			
None.			
#	Test Steps	Expected Results	
		Trading Engine Responses (SAIL)	Market Information (HSVF)
1	<p><u>Client:</u> Specifies disconnection instructions.</p> <p><i>Sends a TA message:</i></p> <p><i>[Disconnection Instruction: Q]</i></p>	<p>Disconnection Instruction is accepted.</p> <p><i>Sends a TM message</i></p>	
2	<p><u>Client:</u> Active Y(ON)</p>		
3	<p><u>Client:</u> Sends a few quotes.</p> <p><i>Sends several Q<i> messages</i></p>	<p>Quotes are accepted.</p> <p><i>Sends several LA messages</i></p>	
4	<p><u>Client:</u> Disconnects.</p> <p><i>Sends a TD message</i></p>	<p>Disconnection is accepted.</p> <p><i>Sends a TL message</i></p> <p>All outstanding quotes are cancelled.</p>	<p>Quote or Market Depth sent.</p> <p><i>Several /FFF or H/HF messages are sent.</i></p> <p><i>For strategy: Several FS or HS message are sent</i></p>
5	<p><u>Client:</u> Reconnects and receives missed messages.</p> <p><i>Sends a TC message:</i></p> <p><i>[Exchange message ID: “ ”]</i></p>	<p>Connection accepted.</p> <p><i>Sends a TK message</i></p> <p>Quotes cancellation notice is sent. <i>Sends an KG message</i></p>	

4.5.6 Disconnection Instruction Management – Quotes not Cancelled

ID #: TEC-06		Type: Technical	Requirement: Optional	Co-ordinated Test: N
Description: Disconnection Instruction Management – Disconnection by Client; outstanding quotes are not cancelled				
Comments: Instruction to cancel quotes is removed				
Prerequisites				
Execution of test case TEC-05				
#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	<p><u>Client:</u> Specifies disconnection instructions.</p> <p><i>Sends a TA message:</i></p> <p><i>[Disconnection Instruction: Q]</i></p>	<p>Disconnection Instruction is accepted.</p> <p><i>Sends a TM message</i></p>		
2	<p><u>Client:</u> Active N(OFF)</p>			
3	<p><u>Client:</u> Sends a few quotes.</p> <p><i>Sends several Q<i> messages</i></p>	<p>Quotes are accepted.</p> <p><i>Sends several LA messages</i></p>	<p>Quote or Market Depth sent.</p> <p><i>Several F/FF or H/HF messages are sent.</i></p> <p><i>For strategy: Several FS or HS message are sent</i></p>	
4	<p><u>Client:</u> Disconnects.</p> <p><i>Sends a TD message</i></p>	<p>Disconnection is accepted; outstanding quotes are not cancelled.</p> <p><i>Sends a TL message</i></p>		
5	<p><u>Client:</u> Reconnects.</p> <p><i>Sends a TC message</i></p>	<p>Connection is accepted.</p> <p><i>Sends a TM message</i></p>		

4.5.7 Sequence Resynchronization

ID #: TEC-07		Type: Technical	Requirement: Mandatory	Co-ordinated Test: N
Description: Re-synchronization from out of sequence situation.				
Comments: None.				
Prerequisites				
Client must be disconnected.				
#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	<u>Client:</u> Connects to SOLA <i>Sends a TC message:</i> <i>[Exchange Message ID: 0]</i>	Connection established. <i>Sends a TK message</i>		
2	<u>Client:</u> Sends an order or a quote. <i>[User Sequence ID: z]</i>	Message is out of sequence. Client is disconnected. Client must reconnect. <i>Sends a TO message:</i> <i>[Received User Sequence ID: z]</i> <i>[Expected User Message ID: x]</i>		
3	<u>Client:</u> Reconnects. <i>Sends a TC message</i>	Re-connection and Disconnection Instructions are accepted. <i>Sends a TK</i>		
4	<u>Client:</u> Sends an order or a quote. <i>[User Sequence ID: x]</i>	Message is in sequence. Order or quote is accepted.		

4.5.8 End of Transmission

ID #: TEC-08		Type: Technical	Requirement: Mandatory	Co-ordinated Test: N
Description: End of Transmission				
Comments: None.				
Prerequisites				
Execution of test case TEC-01				
#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	<u>Client:</u> Sends an End of Transmission message at the end of the trading day. Restart SAIL Front End gateway.	<i>Sends a TT message</i>		

4.6 Unsolicited Service Test Cases

4.6.1 Group Status Change Notification

ID #: UNS-01		Type: Unsolicited Services	Requirement: Optional	Co-ordinated Test: N
Description: Group State Change Notification				
Comments: None.				
Prerequisites				
Choose a Group and change the status of the group.				
#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	Client: Is connected and has requested to receive NG message type.			
2		Sends an NG message when an instrument group change from pre-opening** to Continuous Trading	Group Status Updated. A GR message is sent	

4.6.2 Instrument State Change Notification

ID #: UNS-02		Type: Unsolicited Services	Requirement: Optional	Co-ordinated Test: N
Description: Instrument State Change Notification				
Comments: None.				
Prerequisites				
Choose an instrument and change the status of the instrument.				
#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	Client: Is connected and has requested to receive NI message type.			
2		Sends an NI message when an instrument group change from pre-opening** to Continuous Trading	Quote or Market Depth sent. An F/FF or H/HF message is sent For strategy: FS or HS message is sent	

4.6.3 Bulletin Message

ID #: UNS-03		Type: Unsolicited Services		Requirement: Optional		Co-ordinated Test: Y	
Description: Bulletin message (Market Supervision message) sent from							
Comments: None.							
Prerequisites							
MOC enters a bulletin to be disseminated to market participants							
#	Test Steps	Expected Results					
		Trading Engine Responses (SAIL)			Market Information (HSVF)		
1	Client: Is connected on HSVF						
2	BIT: sends a bulletin messages to the clients				Bulletin message. An L message is sent		

4.7 Order Creation Test Cases

4.7.1 Market Top order

ID #: ORD-01		Type: Order Creation		Requirement: Optional		Co-ordinated Test: N	
Description: Entering a Market Top order.							
Comments: None.							
Prerequisites							
The book for instrument INST1 must be set to [Buy 12@2.00 – Sell 10@2.50]; no other orders must be in the book. 2. Group for instrument INST1 must be in 'Continuous Trading' mode.							
#	Test Steps	Expected Results					
		Trading Engine Responses (SAIL)			Market Information (HSVF)		
1	<u>Client:</u> Enters a Sell Market order for 20 contracts for instrument INST1. Sends an OE message: [Price type: M]	Order is booked. <i>Sends a KE message</i> Order is partially/full filled <i>Sends 1 NT message</i> <i>For Strategy</i> <i>Sends 1 NT message and</i> <i>1 NL message per leg</i>			Quote or Market Depth sent. <i>An F/FF or H/HF message is sent</i> <i>For strategy: FS or HS message is sent</i> Trade sent. <i>A C/CF message is sent</i> <i>Strategy:</i> <i>A CS message is sent</i> <i>A C/CF message per leg is sent</i>		

4.7.2 Limit Order

ID #: ORD-02	Type: Order Creation	Requirement: Mandatory	Co-ordinated Test: N
Description: Entering a limit order. The order opens the position.			
Comments: None.			
Prerequisites			
1. The book for instrument INST1 must be set to [Buy 12@0.10 – Sell 10@0.20]. 2. Group for instrument INST1 must be in 'Continuous Trading' mode.			
#	Test Steps	Expected Results	
		Trading Engine Responses (SAIL)	Market Information (HSVF)
1	<p><u>Client:</u> Enters a Buy order 15@0.20, Open Position, for instrument INST1.</p> <p><i>Sends an OE message:</i></p> <p>[Open/Close: O]</p> <p>[Price type: L]</p>	<p>Order is booked.</p> <p><i>Sends a KE message</i></p> <p>The order is partially/fully traded.</p> <p><i>Sends 1 NT message</i></p> <p><i>For Strategy</i></p> <p><i>Sends 1 NT message and 1 NL message per leg</i></p>	<p>Quote or Market Depth sent.</p> <p><i>An F/FF or H/HF message is sent</i></p> <p><i>For strategy: FS or HS message is sent</i></p> <p>Trade sent.</p> <p><i>A C/CF message is sent</i></p> <p><i>Strategy:</i></p> <p><i>A CS message is sent</i></p> <p><i>A C/CF message per leg is sent</i></p>

4.7.3 Opening Order

ID #: ORD-03	Type: Order Creation	Requirement: Mandatory	Co-ordinated Test: N
Description: Entering an opening order (price Type: "O") during the pre-opening** phase. The order will participate to the auction and totally filled in.			
Comments: None.			
Prerequisites			
The book for instrument INST1 must be set to [Buy 12@200.00 – Sell 10@201.50]. Group for instrument INST1 must be pre-opening** phase			
#	Test Steps	Expected Results	
		Trading Engine Responses (SAIL)	Market Information (HSVF)
1	<p><u>Client:</u> Enters a Sell order 12@ opening price, Close Position, for instrument INST1.</p> <p><i>Sends an OE message:</i></p> <p>[Price type: O]</p> <p>[Duration Type: F]</p> <p>[Open/Close: C]</p> <p><i>the status of the instrument changes from Pre-opening to Opening</i></p>	<p>Order is booked.</p> <p><i>Sends a KE message</i></p> <p>The order is traded at opening price, during the auction phase.</p> <p><i>Sends 1 NT message</i></p>	<p>Quote or Market Depth sent.</p> <p><i>An F/FF or H/HF message is sent</i></p> <p><i>For strategy: FS or HS message is sent</i></p> <p>Trade sent.</p> <p><i>A C/CF message is sent</i></p>

4.7.4 Limit Order during Pre-Opening Phase

ID #: ORD-04		Type: Order Creation	Requirement: Mandatory	Co-ordinated Test: N
Description: Entering a limit order (price Type: "L") during the pre-opening** phase. The order will partially participate to the auction.				
Comments: None.				
Prerequisites				
The book for instrument INST1 must be set to [Buy 12@200.00 – Sell 10@201.50]. Group for instrument INST1 must be pre-opening** phase				
#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	<p><u>Client:</u> Enters a Sell order 15@ opening price, <i>Sends an OE message:</i></p> <p><i>[Price type: L]</i></p> <p><i>The status of the instrument changes from Pre –opening to Opening</i></p>	<p>Order is booked.</p> <p><i>Sends a KE message</i></p> <p>The order is traded at opening price. Remaining quantity will pass into continuous trading</p> <p><i>Sends 1 NT message</i></p>	<p>Quote or Market Depth sent.</p> <p><i>An F/FF or H/HF message is sent</i></p> <p><i>For strategy: FS or HS message is sent</i></p> <p>Trade sent.</p> <p><i>A C/CF message is sent</i></p>	

4.7.5 Passive Limit Order

ID #: ORD-05		Type: Order Creation	Requirement: Optional	Co-ordinated Test: N

#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	<u>Client:</u> Enters two regular Buy/Sell orders in order to create a spread for instrument INST1.	Orders are accepted and booked and spread is created. <i>Sends a KE message</i>	Quote or Market Depth sent. <i>An F/FF or H/HF message is sent</i>	
2	<u>Client:</u> Enters a cross order within the spread Send an Cross Order through OX message <i>[Deferred Publication = D]</i>	Order is accepted and traded. <i>Sends a KO message and two NT messages with Deferred Publication = D</i>	Trade message will be sent at the end of the trading day.	

4.7.26 Committed Block Order

ID #: ORD-26		Type: Order Creation	Requirement: Optional	Co-ordinated Test: Y
Description: Committed block order (interbank)				
Comments: None.				
Prerequisites				
1. Group for instrument INST1 must be in 'Continuous Trading' mode 2. Instrument Book must be clear				
#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	<u>Client</u> : Enters two regular Buy/Sell orders in order to create a spread for instrument INST1.	Orders are accepted and booked and spread is created. <i>Sends a KE message</i>	Quote or Market Depth sent. An F/FF or H/HF message is sent	
2	<u>Client</u> : Enters a committed order within the spread and quantity higher than the block min volume, specifying as counter party BIT (0201) Send an OE message with Price Type='C'	Order is accepted and traded. <i>Sends a Ke message</i>		
3	<u>BIT</u> : Enters a committed order within the spread specifying as Client counter party	Order is accepted and traded. <i>Sends a Ke message and two NT messages with Special Trade Indicator = "K"</i>	Trade message is sent. <i>C<> message is sent with Price Indicator Marker = "T"</i>	

4.7.27 Deferred Committed Order

ID #: ORD-27		Type: Order Creation		Requirement: Optional		Co-ordinated Test: Y	
Description: Deferred Publication for Committed Order (interbank)							
Comments: None.							
Prerequisites							
1. Group for instrument INST1 must be in 'Continuous Trading' mode 2. Instrument Book must be clear 3. Cross volume/value would respect the Post Trade LIS Value and Volume (please refer to Market Access Italy to know these thresholds)							
#	Test Steps	Expected Results					
		Trading Engine Responses (SAIL)			Market Information (HSVF)		
1	<u>Client:</u> Enters two regular Buy/Sell orders in order to create a spread for instrument INST1.	Orders are accepted and booked and spread is created. <i>Sends a KE message</i>			Quote or Market Depth sent. An F/FF or H/HF message is sent		
2	<u>Client:</u> Enters a committed order within the spread specifying as counter party BIT (0201) Send an OE message with Price Type='C' and Deferred Publication=D	Order is accepted and traded. <i>Sends a Ke message with Deferred Publication=D</i>					
3	<u>BIT:</u> Enters a committed order within the spread specifying as Client counter party	Order is accepted and traded. <i>Sends a Ke message and two NT messages with with Deferred Publication=D</i>			Trade message will be sent at the end of the trading day.		

4.7.28 While Connected Orders

ID #: ORD-28		Type: Order Creation		Requirement: Optional		Co-ordinated Test: N	
Description: While connected orders							
Comments: None.							
Prerequisites							
1. Group for instrument INST1 must be in 'Continuous Trading' mode							
#	Test Steps	Expected Results					
		Trading Engine Responses (SAIL)			Market Information (HSVF)		
1	<u>Client:</u> Enters a regular order specifying in duration type = W	Order is accepted.			F/FF or H/HF messages Sent		
2	<u>Client:</u> Disconnection and re connection on the systems	Order status changed to I (EliminatedOnDisconnect) as soon as the Client perform re connection			F/FF or H/HF messages Sent		

4.7.29 Matched Principal Order

ID #: ORD-29		Type: Order Creation		Requirement: Optional		Co-ordinated Test: N	
Description: Entering a Limit order with account type Matched Principal.							
Comments: None.							
Prerequisites							
<ol style="list-style-type: none"> 1. The market for instrument INST1 must be set to [12@2.00 – 10@2.50]. 2. Group for instrument INST1 must be in 'Continuous Trading' mode 3. The trader ID must be granted for the account MP 							
#	Test Steps	Expected Results					
		Trading Engine Responses (SAIL)			Market Information (HSVF)		
1	<p><u>Client:</u> Enters a Buy Limit Order 100@2.40, Matched Principal for the instrument INST1.</p> <p><i>Sends an OE message:</i></p> <p>[Price type: L]</p> <p>[Account type: 6]</p>	<p>Order is booked.</p> <p><i>Sends a KE message</i></p>			<p>Quote or Market Depth sent.</p> <p><i>An F/FF or H/HF message is sent</i></p>		

4.7.30 Market Maker Limit Order

ID #: ORD-30		Type: Order Creation		Requirement: Optional		Co-ordinated Test: N	
Description: Entering a Limit order with account type Market Maker.							
Comments: Not supported on IDEM							
Prerequisites							
<ol style="list-style-type: none"> 1. The book for instrument INST1 must be set to [10@2.00 – 10@2.50]. 2. Group for instrument INST1 must be in 'Continuous Trading' mode 3. The trader ID must be granted for the account Market Maker 							
#	Test Steps	Expected Results					
		Trading Engine Responses (SAIL)			Market Information (HSVF)		
1	<p><u>Client:</u> Enters a Buy Limit Order 100@2.40, with Account Type Market Maker for the instrument INST1.</p> <p><i>Sends an OE message:</i></p> <p>[Price type: L]</p> <p>[Account type: 4]</p>	<p>Order is booked.</p> <p><i>Sends a KE message</i></p>			<p>Quote or Market Depth sent.</p> <p><i>An F/FF or H/HF message is sent</i></p>		

4.7.31 Best Price Setter

ID #: ORD-31		Type: Order Creation	Requirement: Optional	Co-ordinated Test: N
Description: Entering a limit order that becomes a best price setter.				
Comments: Not supported on IDEM				
Prerequisites				
<ol style="list-style-type: none"> 1. The book for instrument INST1 must be set to [10@2.00 – 10@2.50]. 2. Group for instrument INST1 must be in 'Continuous Trading' mode 3. Participant subscribed the BP message on the TC Message 				
#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	<p>Client: Enters a Sell Limit Order 40@101.10 with a Clearing Instruction for instrument INST1.</p> <p>Sends an OE message:</p> <p>[Clearing Instruction: anything]</p>	<p>Order is booked.</p> <p>Sends a KE message</p> <p>Sends a BP Message</p>	<p>Quote or Market Depth sent.</p> <p>An F/FF or H/HF message is sent</p>	

4.8 Order Cancellation Test Cases

4.8.1 Cancelling an Order

ID #: CXL-01		Type: Order Cancellation	Requirement: Mandatory	Co-ordinated Test: N
Description: Cancelling an order.				
Comments: None.				
Prerequisites				
The market for instrument INST1 must be set to [10@2.00 – 10@2.50].				
#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	<p>Client: Enters a regular Sell order 10@2.20 for instrument INST1.</p> <p>Sends an OE message</p>	<p>Order is booked.</p> <p>Sends a KE message:</p> <p>[Order ID: x]</p> <p>[Order Status:]</p>	<p>Quote or Market Depth sent.</p> <p>An F/FF or H/HF message is sent</p> <p>For strategy: FS or HS message is sent</p>	
2	<p>Client: Cancels the previous order.</p> <p>Sends an XE message:</p> <p>[Cancelled Order ID: x]</p>	<p>Order is cancelled.</p> <p>Sends a KZ message</p> <p>[Order Status: "A"]</p>	<p>Quote or Market Depth sent.</p> <p>An F/FF or H/HF message is sent</p> <p>For strategy: FS or HS message is sent</p>	

4.8.2 Cancelling an order by Market Operations

ID #: CXL-02		Type: Order Cancellation	Requirement: Mandatory	Co-ordinated Test: Y
Description: Cancelling an order by Market Control.				
Comments: None.				
Prerequisites				
The market for instrument INST1 must be set to [10@2.00 – 10@2.50].				
#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	<p><u>Client</u>: Enters a regular Sell order 10@2.20 for instrument INST1.</p> <p><i>Sends an OE message</i></p>	<p>Order is booked.</p> <p><i>Sends a KE message:</i></p> <p><i>[Order ID: x]</i></p>	<p>Quote or Market Depth sent.</p> <p><i>An F/FF or H/HF message is sent</i></p> <p><i>For strategy: FS or HS message is sent</i></p>	
2	<p><u>BIT</u>: Cancels the previous order.</p> <p><i>Sends an XE message:</i></p> <p><i>[Cancelled Order ID: x]</i></p>	<p>Order is cancelled.</p> <p><i>Sends a NZ message</i></p> <p><i>[Order Status: "M"]</i></p>	<p>Quote or Market Depth sent.</p> <p><i>An F/FF or H/HF message is sent</i></p> <p><i>For strategy: FS or HS message is sent</i></p>	

4.8.3 Cancelling a Partially Filled Order

ID #: CXL-03		Type: Order Cancellation	Requirement: Mandatory	Co-ordinated Test: N
Description: Cancelling a partially filled order.				
Comments: None.				
Prerequisites				
The market for instrument INST1 must be set to [10@2.00 – 10@2.50].				
#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	<p><u>Client</u>: Enters a regular Buy order 30@2.50 for instrument INST1.</p> <p><i>Sends an OE message</i></p>	<p>Order is booked.</p> <p><i>Sends a KE message:</i></p> <p><i>[Order ID: x]</i></p> <p>Trade 10@2.50</p> <p><i>Sends an NT message</i></p> <p><i>For Strategy</i></p> <p><i>Sends 1 NT message and</i></p> <p><i>1 NL message per leg</i></p>	<p>Quote or Market Depth sent.</p> <p><i>An F/FF or H/HF message is sent</i></p> <p><i>For strategy: FS or HS message is sent</i></p> <p>Trade sent.</p> <p><i>A C/CF message is sent</i></p> <p><i>For strategy: CS message is sent followed by 1 C/CF message per leg</i></p>	
2	<p><u>Client</u>: Cancels the previous order.</p> <p><i>Sends an XE message:</i></p> <p><i>[Cancelled Order ID: x]</i></p>	<p>The remaining quantity of the order is cancelled.</p> <p><i>Sends a KZ message</i></p> <p><i>[Status: "A"]</i></p>	<p>Quote or Market Depth sent.</p> <p><i>An F/FF or H/HF message is sent</i></p> <p><i>For strategy: FS or HS message is sent</i></p>	

4.9 Order Modification Test Cases

4.9.1 Modifying the Price of an Order

ID #: MOD-01		Type: Order Modification		Requirement: Mandatory		Co-ordinated Test: N	
Description: Modifying the price of an order; quantity remains unchanged.							
Comments: The order is cancelled to "clear" the testing environment.							
Prerequisites							
The market for instrument INST1 must be set to [10@2.00 – 10@2.50].							
#	Test Steps	Expected Results					
		Trading Engine Responses (SAIL)			Market Information (HSVF)		
1	<p><u>Client:</u> Enters a regular Sell order 20@2.25.</p> <p>Sends an OE message</p>	<p>Order is booked.</p> <p>Sends a KE message:</p> <p>[Order ID: x</p>			<p>Quote or Market Depth sent.</p> <p>An F/FF or H/HF message is sent</p> <p>For strategy: FS or HS message is sent</p>		
2	<p><u>Client:</u> Modifies the previous order 20@2.20.</p> <p>Sends an OM message:</p> <p>[Quantity Sign: =]</p> <p>[Quantity: 20]</p> <p>[Modified Order ID: x]</p>	<p>Order is booked.</p> <p>Sends a KM message:</p> <p>[Order ID: y]</p>			<p>Quote or Market Depth sent.</p> <p>An F/FF or H/HF message is sent</p> <p>For strategy: FS or HS message is sent</p>		
3	<p><u>Client:</u> Cancels the order.</p> <p>Sends an XE message:</p> <p>[Cancelled Order ID: y]</p>	<p>Order is cancelled.</p> <p>Sends a KZ message:</p> <p>[Status: A]</p>			<p>Quote or Market Depth sent.</p> <p>An F/FF or H/HF message is sent</p> <p>For strategy: FS or HS message is sent</p>		

4.9.2 Modifying Order Quantity

ID #: MOD-02		Type: Order Modification	Requirement: Mandatory	Co-ordinated Test: N
Description: Modifying the quantity (absolute) of an order.				
Comments: The order is cancelled to "clear" the testing environment.				
Prerequisites				
The market for instrument INST1 must be set to [10@2.00 – 10@2.50].				
#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	<p><u>Client:</u> Enters a regular Sell order 1@2.25.</p> <p>Sends an OE message</p>	<p>Order is accepted and booked at 1@2.25.</p> <p>Sends a KE message:</p> <p>[Order ID: x]</p>	<p>Quote or Market Depth sent.</p> <p>An F/FF or H/HF message is sent</p> <p>For strategy: FS or HS message is sent</p>	
2	<p><u>Client:</u> Modifies the previous order 20@2.25.</p> <p>Sends an OM message:</p> <p>[Quantity Sign: =]</p> <p>[Quantity: 20]</p> <p>[Modified Order ID: x]</p>	<p>Order is booked. Modification is accepted and the Quantity is now 20.</p> <p>Sends a KM message:</p> <p>[Order ID: y]</p>	<p>Quote or Market Depth sent.</p> <p>An F/FF or H/HF message is sent</p> <p>For strategy: FS or HS message is sent</p>	
3	<p><u>Client:</u> Cancels the order.</p> <p>Sends an XE message:</p> <p>[Cancelled Order ID: y]</p>	<p>Order is cancelled.</p> <p>Sends a KZ message:</p> <p>[Status: A]</p>	<p>Quote or Market Depth sent.</p> <p>An F/FF or H/HF message is sent</p> <p>For strategy: FS or HS message is sent</p>	

4.9.3 Modifying an Order that was Previously Modified

ID #: MOD-03	Type: Order Modification	Requirement: Mandatory	Co-ordinated Test: N
Description: Modifying an order that has been previously modified and partially filled.			
Comments: The order is cancelled to "clear" the testing environment.			
Prerequisites			
The market for instrument INST1 must be set to [10@2.00 – 10@2.50].			
#	Test Steps	Expected Results	
		Trading Engine Responses (SAIL)	Market Information (HSVF)
1	<p><u>Client:</u> Enters a regular Buy Order 21@2.50.</p> <p>Sends an OE message</p>	<p>Order is accepted and booked at 21@2.50.</p> <p>Sends a KE message:</p> <p>[Order ID: x]</p> <p>Trade 10@2.50</p> <p>Sends an NT message (partial fill)</p> <p>For Strategies, sends NL message per leg</p>	<p>Quote or Market Depth sent.</p> <p>An F/FF or H/HF message is sent</p> <p>For strategy: FS or HS message is sent</p> <p>Trade sent.</p> <p>A C/CF message is sent</p> <p>For strategy: CS message is sent followed by 1 C/CF message per leg</p>
2	<p><u>Client:</u> Modifies the previous order 21@2.50.</p> <p>Sends an OM message:</p> <p>[Quantity Sign: =]</p> <p>[Quantity: 21]</p> <p>[Modified Order ID: x]</p>	<p>Order is booked. Modification is accepted and the Quantity is now 21 and price is 2.50.</p> <p>Sends a KM message:</p> <p>[Order ID: y]</p>	<p>Quote or Market Depth sent.</p> <p>An F/FF or H/HF message is sent</p> <p>For strategy: FS or HS message is sent</p>
3	<p><u>Client:</u> Modifies the previous order 21@2.40.</p> <p>Sends an OM message:</p> <p>[Quantity Sign: =]</p> <p>[Quantity: 21]</p> <p>[Modified Order ID: y]</p>	<p>Order is booked. Modification is accepted and the Quantity is now 21 and price is 2.40.</p> <p>Sends a KM message:</p> <p>[New Order ID: z]</p>	<p>Quote or Market Depth sent.</p> <p>An F/FF or H/HF message is sent</p> <p>For strategy: FS or HS message is sent</p>
4	<p><u>Client:</u> Cancels the order.</p> <p>Sends an XE message:</p> <p>[Cancelled Order ID: z]</p>	<p>Order is cancelled.</p> <p>Sends a KZ message</p> <p>[Status: A "]</p>	<p>Quote or Market Depth sent.</p> <p>An F/FF or H/HF message is sent</p> <p>For strategy: FS or HS message is sent</p>

4.9.4 Modifying a Market Top Order

ID #: MOD-04	Type: Order Modification	Requirement: Optional	Co-ordinated Test: N
Description: Modifying a Market Top order and assigning it a limit price.			
Comments: The order is cancelled to "clear" the testing environment. (Conditional to ORD01)			
Prerequisites			
The market for instrument INST1 must be set to [10@2.00 – 12@2.50]; no other orders must be in the book.			
#	Test Steps	Expected Results	
		Trading Engine Responses (SAIL)	Market Information (HSVF)
1	<p>Client: Enters a Buy Market order for 20 Contracts.</p> <p>Sends an OE message:</p> <p>[Price type: M]</p>	<p>Sends a KE message:</p> <p>[Order ID: x]</p> <p>Trade 12@2.50 and the remaining 8@2.50 is booked.</p> <p>Sends an NT message (partial fill)</p> <p>For Strategy</p> <p>Sends 1 NT message and 1 NL message per leg</p>	<p>Quote or Market Depth sent.</p> <p>An F/FF or H/HF message is sent</p> <p>For strategy: FS or HS message is sent</p> <p>Trade sent.</p> <p>A C/CF message is sent</p> <p>For strategy: CS message is sent followed by 1 C/CF message per leg</p>
2	<p>Client: Modifies the previous order 9@2.40.</p> <p>Sends an OM message:</p> <p>[Quantity Sign: +]</p> <p>[Quantity: 1]</p> <p>[Price type: L]</p> <p>[Modified Order ID: x]</p>	<p>Order is booked. Modification is accepted and the Quantity is now 9 and price is 2.40.</p> <p>Sends a KM message:</p> <p>[Order ID: y]</p> <p>[Status: " "]</p>	<p>Quote or Market Depth sent.</p> <p>An F/FF or H/HF message is sent</p> <p>For strategy: FS or HS message is sent</p>
3	<p>Client: Cancels the previous order.</p> <p>Sends an XE message:</p> <p>[Cancelled Order ID: y]</p>	<p>Order is cancelled.</p> <p>Sends a KZ message</p> <p>[Status: "A"]</p>	<p>Quote or Market Depth sent.</p> <p>An F/FF or H/HF message is sent</p> <p>For strategy: FS or HS message is sent</p>

4.10 Indication of Interest to Trade Test Cases

4.10.1 Indication of Interest to Trade

ID #: IIT-01		Type: Indication of Interest to Trade	Requirement: Optional	Co-ordinated Test: N
Description: Sending an Indication of Interest to Trade message (previously known as Request for Quote).				
Comments: None.				
Prerequisites				
None.				
#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	<p><u>Client</u>: Enters a Indication of Interest to Trade for the instrument INST1 for any quantity.</p> <p><i>Sends an RQ message</i></p>	<p>Indication of Interest to Trade is accepted.</p> <p><i>Sends a KO message</i></p>	<p>Indication of Interest to Trade sent.</p> <p><i>A D/DF message is broadcasted.</i></p>	

4.10.2 Responding to Indication of Interest to Trade

ID #: IIT-02		Type: Indication of Interest to Trade	Requirement: Optional	Co-ordinated Test: Y
Description: Responding to an Indication of Interest to Trade message (previously known as Request for Quote).				
Comments:				
Prerequisites				
<p>1. No market for instrument INST1.</p> <p>2. Client is connected.</p>				
#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	<p><u>BIT</u>: Enters an Indication of Interest to Trade for the instrument INST1 for any quantity.</p>	<p>Indication of Interest to Trade is accepted.</p>	<p>Indication of Interest to Trade message received and dispatched to external participants on the HSVF Market feed.</p> <p>Request for Quote sent.</p> <p>A D/DF message is sent.</p>	
2	<p><u>Client</u>: Responds by posting a market for instrument INST1.</p> <p><i>Sends an OE or a Q<i> message</i></p>	<p>Market is accepted.</p> <p><i>Sends a KE or an LA message</i></p>	<p>Quote or Market Depth sent.</p> <p>An F/FF or H/HF message is sent</p> <p>For strategy: FS or HS message is sent</p>	

4.11 Bulk Quote Test Cases

4.11.1 Entering Bulk Quote

ID #: BUQ-01	Type: Bulk Quote	Requirement: Mandatory for Market Makers	Co-ordinated Test: N
Description: Entering bulk quotes.			
Comments: None.			
Prerequisites			
1. No market for instrument INST1. 2. Participant must be configured as Market Maker on group GRP1. 3. Participant must send Clearing Data message BD (for traderID/GroupID)			
#	Test Steps	Expected Results	
		Trading Engine Responses (SAIL)	Market Information (HSVF)
1	<u>Client</u> : Enters 2 quotes (1 bid and 1 ask) on INST1, Bid = 10@1.00, Ask=10@1.20. <i>Sends a BD message (if not already done)</i> <i>Sends a Q<i> message</i>	Quotes are accepted and booked. <i>Sends a KD message</i> <i>Sends an LA message</i>	Quote or Market Depth sent. <i>An F/FF or H/HF message is sent</i> <i>For strategy: FS or HS message is sent</i>
2	<u>Client</u> Enters a regular Sell order 5@0.90 for instrument INST1.	Order is accepted Trade 5@1.00. <i>Sends an NT message</i> <i>For Strategy</i> <i>Sends 1 NT message and</i> <i>1 NL message per leg</i> The market is now [5@1.00 – 10@1.20].	Quote or Market Depth sent. <i>An F/FF or H/HF message is sent</i> <i>For strategy: FS or HS message is sent</i> Trade sent. <i>A C/CF message is sent</i> <i>For strategy: CS message is sent followed by 1 C/CF message per leg</i>

4.11.2 Modifying Bulk Quote

ID #: BUQ-02	Type: Bulk Quote	Requirement: Mandatory for Market Makers	Co-ordinated Test: N
Description: Modifying the price on quotes when some have been rejected.			
Comments: None.			
Prerequisites			
1. No market for instruments in group GRP1. 2. Instrument INST10 has to be forbidden. 3. Participant must be configured as Market Maker on group GRP1. 4 Participant must send Clearing Data message BD (for traderID/GroupID)

Market for instrument INST1 is now [0@0.00 – 10@1.00].</p> <p><i>Sends a KG message</i></p>	<p>Quote or Market Depth sent.</p> <p><i>F/FF or H/HF messages are sent</i></p> <p><i>For strategy: FS or HS message are sent</i></p>

4.11.7 Handling Unsolicited Cancellations of All Quotes

ID #: BUQ-05		Type: Bulk Quote	Requirement: Mandatory for Market Makers	Co-ordinated Test: Y
Description: Handling unsolicited cancellation of all quotes (done by the Market Operation Center.).				
Comments: None.				
Prerequisites				
<ol style="list-style-type: none"> 1. No market for instruments in group GRP1. 2. Participant must be configured as Market Maker on group GRP1. 3. Participant must send Clearing Data message BD (for traderID/GroupID) 				
#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	Client: Enters 40 quotes (20 bid and 20 ask) on instruments of group GRP1, Bid = 10@1.00, Ask = 10@1.20. Sends a Q<i> message	Quotes are accepted and booked. Sends an LA message	Quote or Market Depth sent. Twenty (20) F/FF or H/HF messages are sent For strategy: Twenty (20) FS or HS message are sent	
2	Client: Enters a regular Buy order 10@1.30 for instrument INST1.	Order is accepted and is traded against the booked quotes. Trade 10@1.20. Sends an NT message For Strategy Sends 1 NT message and 1 NL message per leg	Trade sent. A C/CF message is sent For strategy: CS message is sent followed by 1 C/CF message per leg Quote or Market Depth sent. An F/FF or H/HF message is sent For strategy: FS or HS message is sent	
3	BIT: Cancels all quotes for the participant.	Quotes are cancelled. Sends an NP message (cancellation reason: M) *cancellation reason could be filled "S" in case of cancellation by the system.	Quote or Market Depth sent. Twenty (20) F/FF or H/HF messages are sent For strategy: Twenty (20) FS or HS message are sent	

4.11.8 Unsolicited cancellation of all quotes by Trader

ID #: BUQ-06	Type: Bulk Quote	Requirement: Mandatory for Market Makers	Co-ordinated Test: N
Description: Handling unsolicited cancellation of all quotes (done by Trader).			
Comments: None.			
Prerequisites			
1. No market for instruments in group GRP1. 2. Participant must be configured as Market Maker on group GRP1. 3. Participant must be enable for Global Cancellation			
#	Test Steps	Expected Results	
		Trading Engine Responses (SAIL)	Market Information (HSVF)
1	<u>Client</u> : Enters 40 quotes (20 bid and 20 ask) on instruments of group GRP1, Bid = 10@1.00, Ask = 10@1.20. Sends a Q<i> message	Quotes are accepted and booked. Sends an LA message	Quote or Market Depth sent. Twenty (20) F/FF or H/HF messages are sent For strategy: Twenty (20) FS or HS message are sent
2	<u>Client</u> : Cancels all quotes trough a GC message.	Quotes are cancelled. Sends an NP message (Quote cancellation reason: A –Cancelled By Trader)	Quote or Market Depth sent. Twenty (20) F/FF or H/HF messages are sent For strategy: Twenty (20) FS or HS message are sent

4.11.9 Unsolicited Cancellation of Quote by Circuit Breaker

ID #: BUQ-07	Type: Bulk Quote	Requirement: Mandatory for Market Makers	Co-ordinated Test: N
Description: Handling unsolicited cancellation of all quotes (CancelledByCircuitBreaker).			
Comments: None.			
Prerequisites			
1. No market for instruments in group GRP1. 2. Participant must be configured as Market Maker on group GRP1. 3. Participant must send Clearing Data message BD (for traderID/GroupID) 4. Two opposite orders with Price 10 must be traded			
#	Test Steps	Expected Results	
		Trading Engine Responses (SAIL)	Market Information (HSVF)
1	<u>Client</u> Price 20 XLow<YLow<ZLow<YHigh<20<ZHigh<XHigh		
2	<u>Client</u> Enters a regular Buy order 100@20 for instrument INST1.	Order is accepted and booked. <i>Sends 1 an KE message</i>	Quote or Market Depth sent. Twenty (20) F/FF or H/HF messages are sent For strategy: Twenty (20) FS or HS message are sent

3	<p><u>Client:</u> Enters 100 quotes (50 bid and 50 ask) on instruments of group GRP1, Bid = 50@19.5, Ask = 50@20.</p> <p>Sends a Q<i> message</p>	<p>Quotes are deleted due to circuit breaker (<i>NP sent with cancellation reason: C</i>)</p> <p><i>NI Message with Instrument state changes in Suspended as 'S'</i></p> <p>After 1minute <i>NI Message with Instrument Status 'N'</i>.</p>	<p>Trade sent.</p> <p>A C/CF message is sent</p> <p>For strategy: CS message is sent followed by 1 C/CF message per leg</p> <p>Quote or Market Depth sent.</p> <p>An F/FF or H/HF message is sent with Status "F"</p> <p>For strategy: FS or HS message is sent with Status "F"</p> <p>After 1minute for H/HF or F/FF message is sent with Status "T".</p>
---	---	---	--

4.11.10 Unsolicited Cancel of Quotes on Disconnect

ID #: BUQ-08	Type: Bulk Quote	Requirement: Mandatory for Market Makers	Co-ordinated Test: N
Description: Handling unsolicited cancellation of all quotes (EliminatedOnDisconnect)			
Comments: None.			
Prerequisites			
<ol style="list-style-type: none"> 1. No market for instruments in group GRP1. 2. Participant must be configured as Market Maker on group GRP1. 3. Participant must send Clearing Data message BD (for traderID/GroupID) 			
#	Test Steps	Expected Results	
		Trading Engine Responses (SAIL)	Market Information (HSVF)
1	<p><u>Client:</u> Enters quotes Buy and Sell quotes.</p>	<p>Quotes are accepted and booked.</p> <p>Sends a KD message</p> <p>Sends an LA message</p>	<p>Quote or Market Depth sent.</p> <p><i>Twenty (20) F/FF or H/HF messages are sent</i></p> <p><i>For strategy: Twenty (20) FS or HS message are sent</i></p>
2	<p>Request for Disconnection by the Client Send TD Message</p>	<p><i>Receives TL Message and Client gets disconnected and quotes are removed.</i></p>	<p>Trade sent.</p> <p>A C/CF message is sent</p> <p>For strategy: CS message is sent followed by 1 C/CF message per leg</p> <p>Quote or Market Depth sent.</p> <p>An F/FF or H/HF message is sent</p> <p>For strategy: FS or HS message is sent</p>
3	<p><u>Client:</u> Re-connection on the system</p>	<p><i>Quotes are deleted (NP sent with Quote cancellation reason: I (EliminatedOnDisconnect)</i></p>	<p>Trade sent.</p> <p>A C/CF message is sent</p> <p>For strategy: CS message is sent followed by 1 C/CF message per leg</p> <p>Quote or Market Depth sent. <i>An F/FF or H/HF message is sent</i></p> <p><i>For strategy: FS or HS message is sent</i></p>

4.12 Trade Management Test Cases

4.12.1 Many Fills for Same Order

ID #: TRD-01	Type: Trade Management	Requirement: Mandatory	Co-ordinated Test: N
Description: Handling many fills for the same order.			
Comments: None.			
Prerequisites			
1. The market for instrument INST1 must be set to [12@2.00 – 10@2.50]. 2. Group for instrument INST1 must be in 'Continuous Trading' mode.			
#	Test Steps	Expected Results	
		Trading Engine Responses (SAIL)	Market Information (HSVF)
1	<u>Client</u> : Enters a Sell order or a quote for instruments INST1 75@2.40. <i>Sends an OE message</i>	Order is accepted. <i>Sends a KE or an LA message</i>	Quote or Market Depth sent. <i>An F/FF or H/HF message is sent</i> <i>For strategy: FS or HS message is sent</i>
2	<u>Client</u> : Enters 10 Buy orders for instrument: INST1 2@MKT , 3@MKT, 4@MKT, 5@MKT, 6@MKT, 7@MKT, 8@MKT, 9@MKT, 10@MKT, 11@MKT.	10 Trades: 2@2.40, 3@2.40, 4@2.40, 5@2.40, 6@2.40, 7@2.40, 8@2.40, 9@2.40, 10@2.40, 11@2.40. <i>Sends 10 NT messages</i> <i>For each of the 10 strategies</i> <i>Sends 1 NT message and</i> <i>1 NL message per leg</i> Market for instrument INST1 is now [12@2.00 – 10@2.40].	Trade sent. <i>A C/CF message is sent for each trade</i> <i>For strategy: CS message is sent followed by 1 C/CF message per leg for each strategy trade</i>

4.12.2 Manual Trade Cancellation

ID #: TRD-02		Type: Trade Management		Requirement: Mandatory		Co-ordinated Test: Y	
Description: Handling manual cancellation of a regular trade by the Market Operation Center.							
Comments: None.							
Prerequisites							
Execution of test case TRD-01							
#	Test Steps	Expected Results					
		Trading Engine Responses (SAIL)			Market Information (HSVF)		
1	BIT: Manually cancels the first and the last Trades from Test Case TRD-01 (2@2.40 and 11@2.40).	<p>The 2 trades are cancelled.</p> <p>Sends 2 NX messages</p> <p>For each of the 2 Strategies</p> <p>Sends 1 NX message and</p> <p>1 NY message per leg</p>			<p>Trade Cancellation and Summary.</p> <p>Two (2) I/IF and N/NF messages are sent</p> <p>For Strategy: Two (2) IS and NS messages are sent</p>		

4.12.3 Manual Trade Creation and Cancellation

ID #: TRD-03		Type: Trade Management		Requirement: Optional		Co-ordinated Test: Y	
Description: Handling manual trade creation and cancellation.							
Comments: None.							
Prerequisites							
#	Test Steps	Expected Results					
		Trading Engine Responses (SAIL)			Market Information (HSVF)		
1	BIT: Creates a manual trade for instrument INST1 by using the TraderID of the client on both sides of the trade.	<p>A first trade is created.</p> <p>Sends one NT message</p> <p>For Strategy</p> <p>Sends 1 NT message and</p> <p>1 NL message per leg</p>			<p>Trade sent.</p> <p>A C/CF message is sent.</p> <p>For strategy: CS message is sent followed by 1 C/CF message per leg</p>		
2	BIT: Creates a manual trade for instrument INST1 by using the TraderID of the client on one side and a different TraderID for the client on the opposite side of the trade.	<p>A second trade is created</p> <p>Sends one NT message</p> <p>For Strategy</p> <p>Sends 1 NT message and</p> <p>1 NL message per leg</p>			<p>Trade sent</p> <p>A C/CF message is sent</p> <p>For strategy: CS message is sent followed by 1 C/CF message per leg</p>		
3	BIT: Cancel trades created in Steps 1 and 2.	<p>Trades are cancelled.</p> <p>2 NX messages are sent.</p> <p>For each of the 2 Strategies</p> <p>Sends 1 NX message and 1 NY message per leg</p>			<p>Trades Cancellation.</p> <p>I/IF and N/NF messages sent</p> <p>For Strategy: IS and NS messages are sent</p>		

4.12.4 Trade Amend

ID #: TRD-04		Type: Trade Management	Requirement: Optional	Co-ordinated Test: Y
Description: Handling manual trade amend from Market Operation Center (MOC).				
Comments: None.				
Prerequisites				
Execution of test case TRD-01				
#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	<u>BIT</u> : Manually amends price and quantity of the first trade from Test Case TRD-01 (2@2.40).	<p>A trade is amended.</p> <p><i>Sends one NX message</i></p> <p><i>[PTT Cancellations and Amendments=C]</i></p> <p><i>Sends one NT message</i></p> <p><i>[PTT Cancellations and Amendments=A]</i></p>	<p>Cancellation and Summary.</p> <p><i>An I/IF an N/NF messages are sent.</i></p> <p>New Trade sent.</p> <p><i>A C/CF message is sent</i></p> <p><i>PTT Cancellation and Amendments=A</i></p>	

4.12.5 Manual Trade Acceptance

ID #: TRD-05		Type: Trade Management	Requirement: Optional	Co-ordinated Test: Y
Description: Handling manual trade amend from Market Operation Center (MOC).				
Comments: currently not supported on IDEM.				
Prerequisites				
INST1 has to support Manual Trade Acceptance				
#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	<u>Client</u> : Enters two regular Buy/Sell orders in order to create a spread for instrument INST1.	<p>Orders are accepted and booked and spread is created.</p> <p><i>Sends a KE message</i></p>	<p>Quote or Market Depth sent.</p> <p><i>An F/FF or H/HF message is sent</i></p>	
2	<u>Client</u> : Enters two cross orders within the spread with the same quantity and price Send two Cross Orders through OX messages	<p>Order is accepted and traded.</p> <p><i>Sends a KO message and two NT messages [Special Trade Indicator= D and Proposal Status = W]</i></p>	<p>Trade message is sent.</p> <p><i>C<> message is sent with Price Indicator Marker ="C"</i></p>	
3	<u>BIT</u> : Manually Accept the trade	<p>The trade is accepted</p> <p><i>Sends one NT message</i></p> <p><i>[Proposal Status = A]</i></p>		

4.13 Market Maker Protection Test Cases

4.13.1 Max Volume

ID #: MMT-01		Type: Trade Management	Requirement: Mandatory for MM	Co-ordinated Test: N
Description: Max Volume: is designed to protect market making participants from "excessive" trades				
Comments: Enabled by default for all Market Makers				
Prerequisites				
For this test one MM (Participant) and one TRADER (Exchange Controlled) are needed. Set MM protection Max Volume to 100 ON instrument A of Group Z (in BD message) Set MM protection to Advanced (in RP message)				
#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	<u>Client:</u> Buy 150 of A @ Price P Sell 150 of A @ Price P + 1 Tick <i>Sends an Qi message:</i>	Quote is accepted. <i>Sends a LA message</i>		
2	<u>Client:</u> Sell 100 of A @ Market Price <i>Sends an OE message</i>	Trade is done <i>Sends 1 NT message is sent</i> <i>An NP message is sent</i>		

4.13.2 Delta Volume

ID #: MMT-02		Type: Trade Management	Requirement: Mandatory for MM	Co-ordinated Test: N
Description: Delta Volume: is designed to protect market making participants from "excessive" trades				
Comments: Enabled by default for all Market Makers				
Prerequisites				
Set MM protection Max Volume to 2000 Set MM protection Max Delta to 1000 Set MM protection to Advanced				
#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	<u>Client:</u> Quote on Instrument A of Group Z: Buy 1010 of A @ Price P Sell 1010 of A @ Price P + 1 Tick <i>Sends an Qi message:</i>	Quote is accepted. <i>Sends a LA message</i>		

2	<u>Client:</u> enters Sell 1010 of A @ Market Price Sends an OE message	Trade is done Sends 1 NT message is sent An NP message is sent	
---	---	--	--

4.14 Market Maker Alarms

4.14.1 Market Maker Alarms

ID #: ALR-01		Type: Trade Management		Requirement: Mandatory for Market Maker		Co-ordinated Test: N	
Description:							
Comments: For this test one MM (Participant) and one TRADER (Exchange Controlled) are needed.							
Prerequisites							
#	Test Steps	Expected Results					
		Trading Engine Responses (SAIL)			Market Information (HSVF)		
1	<u>Client:</u> The MM will Quote on Instruments belonging to Group AA fulfilling its spread and volume obligation Sends an Qi message:	Order is accepted Sends an LA message No market makers alarms are generated			H/HF or F/FF messages sent.		
2	<u>Client:</u> The MM will Quote on Instruments belonging to Group AA not fulfilling its spread obligations	Order is accepted Sends an LA message Sail Messages MM is received after 2 minutes advising that spread obligations are not fulfilled			H/HF or F/FF messages sent.		
3	<u>Client:</u> The MM will Quote on Instruments belonging to Group AA not fulfilling its volume obligations	Order is accepted Sends an LA message Sail Messages MM is received after 2 minutes advising that spread obligations are not fulfilled			H/HF or F/FF messages sent.		
4	<u>Client:</u> The MM will not Quote on any Instruments belonging to Group AA	Sail Messages MM is received after 2 minutes advising that prices are missing Q			H/HF or F/FF messages sent.		
5	<u>Client:</u> The MM will Quote on Instruments belonging to Group AA not fulfilling comparable size deviation	Sail Messages MM is received after 2 minutes advising that Quantities outside comparable size deviation [Alert Type = 9]			H/HF or F/FF messages sent.		

4.14.2 Market Maker Alarms under Stressed Market Condition

ID #: ALR-02		Type: Trade Management	Requirement: Mandatory for Market Maker	Co-ordinated Test: Y
Description:				
Comments: For this test one MM (Participant) and one TRADER (Exchange Controlled) are needed.				
Prerequisites				
The trader has Market making obligations for Group AA				
#	Test Steps	Expected Results		
		Trading Engine Responses (SAIL)	Market Information (HSVF)	
1	<u>BIT:</u> sends Bulletin message Stressed Market Condition Start on Group AA		L(1) Regular Text Bulletin [Bulletin type = 2]	
2	<u>Client:</u> The MM will Quote on Instruments belonging to Group AA fulfilling its spread and volume obligation <i>Sends an Qi message:</i>	Order is accepted <i>Sends an LA message</i> No market makers alarms are generated	H/HF or F/FF messages sent.	
3	<u>Client:</u> The MM will Quote on Instruments belonging to Group AA not fulfilling its spread obligations	Order is accepted <i>Sends an LA message</i> <i>Sail Messages MM is received after 2 minutes advising that spread obligations are not fulfilled</i>	H/HF or F/FF messages sent.	
4	<u>Client:</u> The MM will Quote on Instruments belonging to Group AA not fulfilling its volume obligations	Order is accepted <i>Sends an LA message</i> <i>Sail Messages MM is received after 2 minutes advising that spread obligations are not fulfilled</i>	H/HF or F/FF messages sent.	
5	<u>Client:</u> The MM will not Quote on any Instruments belonging to Group AA	<i>Sail Messages MM is received after 2 minutes advising that prices are missing Q</i>	H/HF or F/FF messages sent.	
6	<u>Client:</u> The MM will Quote on Instruments belonging to Group AA not fulfilling comparable size deviation	<i>Sail Messages MM is received after 2 minutes advising that Quantities outside comparable size deviation [Alert Type = 9]</i>	H/HF or F/FF messages sent.	

4.15 Drop Copy Test Cases

4.15.1 Drop Copy

ID #: DC-01	Type: Drop Copy extended messages	Requirement: Optional	Co-ordinated Test: N
Description: It allows customers to manage orders entered by other traders in the firm			
Comments: Drop copy user type needs to be used			
Prerequisites			
<p>Customer must connect two users:</p> <ul style="list-style-type: none"> - One normal order routing user; - One Drop Copy user; 			
#	Test Steps	Expected Results	
		Trading Engine Responses (SAIL)	Market Information (HSVF)
