

New Production Native Gateways

The purpose of this announcement is to advise customers that two new production Native trading gateways are being introduced to the current suite of Turquoise trading gateways.

Connectivity details can be found in TQ102 – Turquoise Equities – Connectivity Guide on the Turquoise website at the following location: <http://www.lseg.com/markets-products-and-services/our-markets/turquoise/information-centre/document-library>

The new gateways will be available to customers on the Turquoise production environment from **12 September 2016**.

Customer should request access to the new gateways by contacting their Technical Account Manager or the Technical Account Management Team on +44 (0)20 7797 3939 or via londontam@lseg.com.
