

CurveGlobal Markets – Network Infrastructure Upgrade – Customer Testing Reminder

The purpose of this announcement is to remind customers of network infrastructure upgrade work scheduled to take place on London Stock Exchange Group's primary data centre (PDC) on **Saturday 29 February 2020**.

A testing period will be provided, and **customers are strongly encouraged to test** their production connectivity after the changes are made.

The testing period will be from 13:30 – 15:30 UK Time. During the tests, customers should test the following:

- Login using their production IDs
- Verify multicast heartbeats are received (if applicable)
- Enter orders (if applicable)

The following services will be available for testing

- Millennium Exchange – London Stock Exchange, Turquoise, Borsa Italiana, EuroTLX
- Group Ticker Plant – London and Milan
- TRADEcho
- SOLA – CurveGlobal Markets and IDEM

To register your participation, or for any queries on this notice please contact your Technical Customer Relationship Manager or the Technical Customer Relationship Management team on +44 (0) 20 7797 3939, or via londontam@lseg.com.
