

CurveGlobal Markets – SOLA 14C Release & BNT Minimum Price Increment Go-Live – Monday 22 February 2021

Further to the technical notice [001/07012021](#) sent on 7 January 2021, this announcement confirms the production go-live of SOLA 14C on **Monday 22 February 2021**.

As a reminder, CurveGlobal Markets SOLA 14C Release will introduce the optional Self Execution Prevention (SEP) functionality Cancel Resting Order (CRO).

In addition, and as notified via Market Notice [2021/004](#) on 27 January 2021, changes to the minimum price increments for Bilaterally Negotiated Transactions will also be effective in Production on **Monday 22 February 2021**.

The updated HSVF Market Data Technical Specification document can be found in the document library at <https://www.lseg.com/derivatives/document-library>.

Please contact your Technical Customer Relationship Manager, or the Technical Customer Relationship Management team on +44 (0)20 7797 3939, or via londontam@lseg.com, if you require access to the new SEP functionality or have any questions regarding this notice.
