BCS API Enhancements Effective 30 May 2017

Further to the Technical Notice of 17 October 2016, from **Tuesday 30 May 2017**, the use of the BCS API Inquiry interface will no longer be allowed. The continuous use of Inquiries to simulate real time data reception will be notified through a reject. Clients are required to implement the new Subscribe interfaces.

On Tuesday 30 May 2017, each BCS API user will have frequency limitations on each layout. These limitations will be applied to the BCS CDS environment on **Friday 21 April**.

For further details of these limits, please see Section 4.0 of the Blts Clearing Station (BCS) Application Data Layouts which can be found here:

<http://www.lseg.com/derivatives/document-library>

For more information please contact your Technical Account Manager or the Technical Account Management Team on +44 (0) 20 7797 3939 or londontam@lseg.com
