London Stock Exchange Derivatives – Equity Derivatives

BCS GUI/API Enhancements

Further to the Technical Notice sent on 7 September 2016, the purpose of this Technical Notice is to inform members that the proposed decommission of the BCS API Inquiry interfaces will be postponed from 30 January 2017 to 31 March 2017 in order to facilitate client migrations.

From this date, the use of the Inquiry interfaces to continuously simulate real time data reception will be no longer allowed. Clients should implement the new Subscribe interfaces. A continuous use of Inquiries will be notified through a reject.

We would also like to advise Members that a newly updated version of the **LSEDM102 – Connectivity Guide** is available from the London Stock Exchange Derivatives website. This has been updated to reflect the new BCS Production IP addresses and port details.

For more information please contact your Technical Account Manager or the Technical Account Management Team on +44 (0) 20 7797 3939 or londontam@lseg.com
