LSEDM Equity Derivatives – SOLA 9.2 Mandatory Upgrade Technical Specifications Release

The purpose of this Technical Notice is to inform customers that the SOLA 9.2 Technical Specifications relating to the LSEDM Equity Derivatives market are now available.

This new functional release includes:

- Changes to the FIX and SAIL protocols that support the availability of pre-trade risk management and validation
- Addition of micro second timestamps to the HSVF protocol

Customers should be aware that SOLA 9.2 upgrade is **mandatory** for the LSEDM Equity Derivatives market. This upgrade **does not impact** the LSEDM Interest Rate Derivatives SOLA instance.

New Technical Specifications can be found under the 'Next Functional Release – Equity Derivatives' section on the London Stock Exchange Derivatives Document Library website at the following link: <http://www.lseg.com/derivatives/document-library>.

Below is the planned schedule of activities for the SOLA 9.2 upgrade

Customer Development Service (CDS) environment upgraded to SOLA 9.2	20 September 2016
Customer Dress Rehearsal	19 November 2016
Production Go-Live*	28 November 2016

*Subject to internal testing / customer readiness

A further communication will be issued in due course with details of the Customer Dress Rehearsal and to confirm production go-live date.

For technical questions please contact your Technical Account Manager or the Technical Account Management Team on +44 (0) 20 7797 3939 or londontam@lseg.com.
