	Consultancy	

**Reducing the impact of changes in technology**

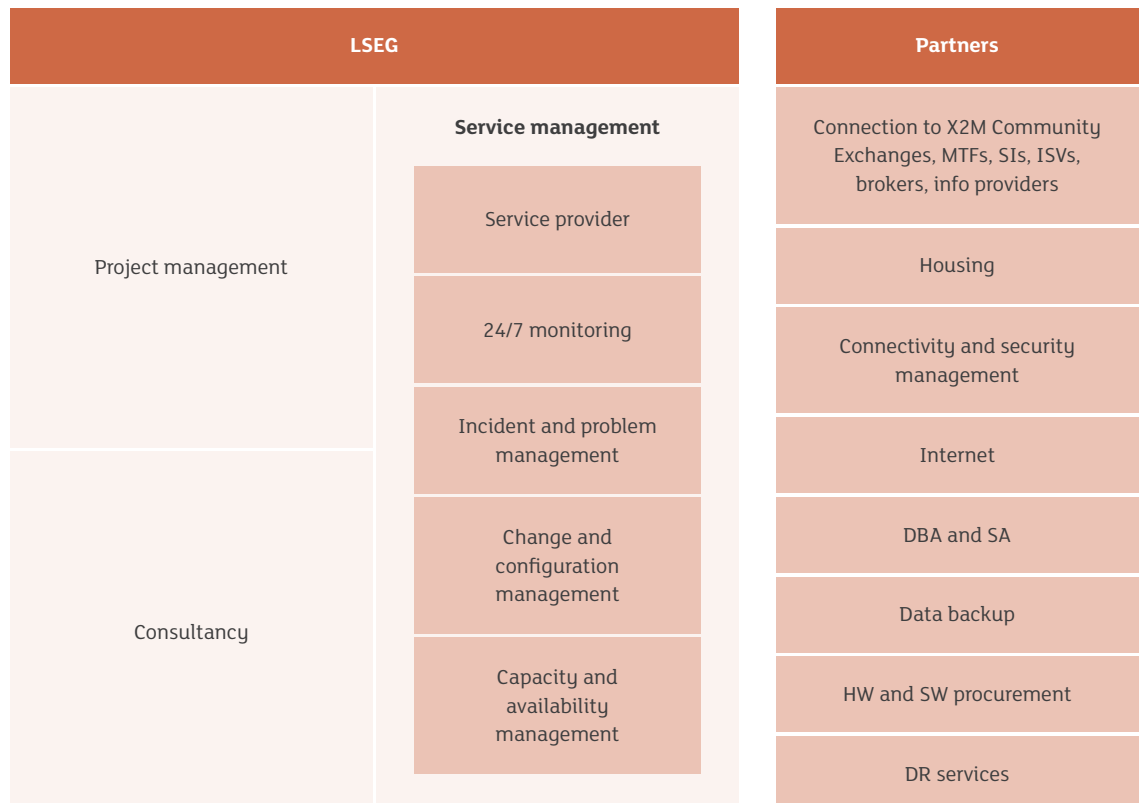

**Service model**

X2M is based on a value-added co-operation/co-opetition model focused on systems integration and project management activities with excellent partners.

- X2M provides customers with the opportunity to:
- reduce the impact of technology changes
  - rationalise the infrastructures connecting their market and financial services
  - compress the start-up phase
  - reduce operating costs
  - achieve high performance and reliability by defining efficient architectures
  - join a community able to generate new services and new service models.

“Customers can compress start-up and reduce costs.”

**Integrating the value chains and expertise of partners**
