# Turquoise Notice

14 October 2019

## Turquoise GTP Market Data

---

The purpose of this notice is to advise customers that from the start of day today to 08:48 UTC, Turquoise Group Ticker Plant ('GTP') messages were subject to an incorrect value in the 'Timestamp' field used to communicate the message generation time. Performance in the dissemination of messages was unaffected with all messages published in a timely manner, and timestamps within the messages (e.g. Transaction Time in Trade and Trade Summary messages) were also unaffected. The issue was resolved at 08:48 UTC.
