# Turquoise Notice

10 May 2021

## Turquoise Next Functional Release 9.6.9 And CDS Maintenance Day

---

Turquoise next functional release, 9.6.9, will be deployed to the Customer Development Service (CDS) on **Wednesday 26 May 2021**, during a CDS maintenance day. The Turquoise CDS environment is expected to be available as normal on **Thursday 27 May 2021**.

Production go-live is expected on **Monday 21 June 2021** subject to testing.

As part of this release, late Block Discovery Executions which occur in Turquoise Plato Continuous™, will be flagged with a trade liquidity indicator value of 'Removed Liquidity'.

The updated Turquoise Trading Services Description document, updated Technical documents, and the new Summary of R9.6.9 Sepcification Changes document can be found in the 'Turquoise Document Library' under 'Next Functional Release':
