## Turquoise Release 9.3 Production Go-Live Date reminder

As previously communicated, Turquoise plans to implement the next Turquoise Release (Release 9.3) into Production on **Monday 20 August 2018**.

Turquoise would like to remind participants that Release 9.3 is available for testing in the Customer Development Service (CDS).

The next Turquoise release includes the following enhancements:

- **Turquoise Plato™ Order Book & Turquoise Plato Block Discovery™**
  - Participants can now 'opt-in' to have a 'BDN' added by default (per UserID).
  - Participants via the FIX Trading Gateway can now submit 'Pegged' Block Indications (BI) and 'Pegged' BDNs.
- **Turquoise Plato™ Order Book – Publication<sup>1</sup>** of changes to the Primary Market Midpoint Price (PMP) when Well Formed Market Checks have passed.
- **Sponsored Access**
  - **Turquoise Lit Auctions™ Order Book<sup>2</sup>** - Introduction of Sponsored Access.
  - Introduction for Sponsoring Firms to manage Sponsored Users access via the Drop Copy Gateway. Sponsoring Firms will be able to "Suspend", "Activate" and request the "Status" of their Sponsored Users.
- Before this release, CCP information sent to Participants uses 'EMCF' to recognise EuroCCP. Following this release 'EMCF' will be changed to 'ECCP' via the Native & FIX Trading, Drop Copy and Post Trade Gateways.

The Turquoise Trading Service Description and Technical Documentation have been updated to reflect the changes (where appropriate). These can be found in the Turquoise Document Library, Next Functional Release section:

<http://www.lseg.com/markets-products-and-services/our-markets/turquoise/information-centre/document-library>.

---

<sup>1</sup> Go-Live date of the PBBO Midpoint publication is still to be determined by **Turquoise®**.

<sup>2</sup> **Turquoise Lit Auctions™** is an innovation of price forming auctions within a Primary Market Best Bid and Offer (PBBO) Reference Price Collar, operating frequently and with pre-trade transparency throughout the trading day, supporting simple limit and PBBO midpoint pegged orders. **Turquoise Lit Auctions™** operates with a separate MIC, TRQA, functioning independently of the existing **Turquoise Lit™** and **Turquoise Plato™** order books.
