Turquoise Rules and Production Go-Live Dates for the next Turquoise Release – Update

The purpose of the Notice is to provide Members with notice of:

- An amendment to the Turquoise rulebook related to the introduction of **Turquoise Plato Trade At Last™**; and
- A reminder of the forthcoming GTP and Turquoise releases first announced in the Turquoise Notice of 21 April 2020.

Turquoise Rulebook change

In order to accommodate the introduction of the **Turquoise Plato Trade At Last™** matching phase which ends at 16:45 UK time, the Turquoise rulebook is being updated to extend the last time Trading Members can request the cancellation of a trade from 16:40 to 17:00 UK time. This extension will not affect the requirement for Trading Members to request the cancellation of a trade within 30 minutes of the trade time.

Rule 5.5.3 of the Turquoise rulebook will be revised as follows:

“A request made by a Trading Member to cancel any trade(s) to which it is a party must be made as soon as possible, and in any event no later than thirty (30) minutes from the trade time or by 17:00 UK time, whichever is sooner.”

Rules 3.1.8 has also been updated to refer to “UK time” rather than “London time”.

These changes will become effective on 13 July 2020. A marked-up version of the rulebook is attached to this Turquoise Notice and a clean version can be found in the Turquoise Document Library.

GTP and Turquoise releases

As a reminder, the Production implementation of the GTP Release is planned to Go Live on **6 July 2020**, with the Turquoise Release planned to Go Live on **13 July 2020** (*subject to successful testing*).

The GTP and Turquoise releases are both available in the Customer Development Service (CDS) for client testing.

The next Turquoise release includes the following enhancements:

- **Turquoise Plato Lit Auctions™ Order Book¹**

¹ Subject to regulatory non-objection

Turquoise Notice

3 June 2020

- Orders with a Good for Auction 'GFA' Time in Force 'TIF' will be reintroduced. GFA Orders will only be accepted if upon entry the auction generates an Indicative Auction Price and Quantity greater than 0 (zero), else the GFA Order will be expired immediately.
- Changes to the matching logic, to allow Pegged Orders to be considered at their Limit Price, when they are not marketable at the midpoint of the Primary Market Best Bid and Offer.
- **Turquoise Plato™ (including Turquoise Plato Block Discovery™) Order Book¹**
 - Introduction of a new **Turquoise Plato Trade at Last™** matching phase, which supports matching of Orders and Block Indications at the Primary Market's Closing Price until 16:45 (UK time).
- **Turquoise Lit™, Turquoise Plato Lit Auctions™ and Turquoise NYLON™ Cash Order Books**
 - Following the introduction of the new **Turquoise Plato Trade at Last™** matching phase within the **Turquoise Plato™** Order Book, all Orders will now expire at the close of the trading session. For Example: Unexecuted Orders will now expire from the **Turquoise Lit™** and **Turquoise Plato Lit Auctions™** Order Books and **Turquoise NYLON™** Cash Order Book at 16:30:01, instead of 16:30:02 (UK Time).

The Turquoise Trading and Turquoise Plato Block Discovery Service Descriptions, and any Technical Documentation have been updated to reflect the changes (where appropriate). These can be found in the Turquoise Document Library, Next Functional Release section:

<http://www.lseg.com/markets-products-and-services/our-markets/turquoise/information-centre/document-library>.

The next GTP release includes the following Turquoise enhancements:

- **Trade Summary Message – Turquoise Lit™ Order Book**
 - Enhancement to the Trade Summary Message sent via Group Ticker Plant (GTP), to include the 'Side' of the Passive Order.
Note: This field will Go Live on 6 July 2020 and will be populated from 13 July 2020.
- **Order Book Recovery – Publication of Instrument Status for all Instruments**
 - GTPs Market Data Clients will receive an Instrument Status for all Instruments via Instrument level 'Recovery Complete' message.

Updated GTP documents can be found on the Group Ticker website, at the following link:
