Fees for issuers

1 April 2013

Introduction

This document contains details of the London Stock Exchange plc fees for both United Kingdom incorporated ('UK') companies and overseas incorporated ('International') companies admitting securities to trading on the following London Stock Exchange markets: the **Main Market**, the **Professional Securities Market** and the **Specialist Fund Market**. The fees are also payable for securities that are admitted to trading via an EU competent authority passport and any other securities that are admitted to trading without seeking admission to the Official List.

This document also contains a summary of admission and annual fees payable by **AIM** companies (see page 10). The full AIM fees for companies and nominated advisers brochure is available at:
<http://www.londonstockexchange.com/feescalculator>

Admission fees are payable on all applications for securities to be admitted to trading on any of the London Stock Exchange's markets. An invoice for the admission fee will be raised at that time. Payment of admission fees must be received **no later than 30 days after the date of such invoice**. In the case of equity issues admitted to the Main Market, the Professional Securities Market or the Specialist Fund Market or admitted to trading without seeking admission to the Official List, two different fee scales are applied for admission fees - one for new companies **joining the market** and the other for **further issues of securities** by companies already admitted, based on the market capitalisation of those securities at admission. Companies subject to a **reverse takeover** pay admission fees according to the new company scale.

In the event of an application being made where more than one line of security is being admitted, a separate fee will be charged for each class of security¹.

Fixed income, floating rate securities and international debt securities

As stated on the face value of security.

Exchange rates

For securities denominated in a currency other than pounds sterling, the market capitalisation must be converted into pounds sterling at the exchange rate printed in the edition of the Financial Times 'FT guide to world currencies', published on the Monday immediately preceding the date of admission. The rate advised in this edition will be used for all currency conversions during that week.

Each additional security in excess of 20 on the same day	£1,000

- If an ETF, ETC or ETN is already admitted to trading on one of London Stock Exchange Group markets (London Stock Exchange and Borsa Italiana), the issuer receives a 15% discount on the standard admission fee when the security is admitted to trading on the other London Stock Exchange Group market.
- If an ETF, ETC or ETN is admitted to trading on both the London Stock Exchange and Borsa Italiana on the same day, the issuer will receive a 7.5% discount on the admission fee on both exchanges.
- The cross-listing discount is not applied to ETFs admitted to the EOTC (trade reporting only) sector of the London Stock Exchange.

New Issuers

Fee for admission of securities by new issuers will be capped at £20,000 where up to 20 securities are admitted in the first month of becoming an ETF/ETP issuer on the London Stock Exchange.

ETFs admitted to London Stock Exchange Voluntary OTC Trade Reporting Service

For those ETFs which are admitted to our Voluntary OTC Trade Reporting Service (sector 'EOTC') and which are not subject to the London Stock Exchange Rules and trade reporting requirements, the fee structure below will apply:

Number of ETFs	Package Charge	Charge Per ETF
1	£250	£250
50	£10,000	£200
200	£30,000	£150
500+	£50,000	£100

Annual fees

Annual fees are payable by issuers on each individual ETF and ETP admitted to trading on the London Stock Exchange's Main Market, excluding multi-currency lines. Annual fees are based on the market capitalisation of each fund at close of trading on the last business day of November in the preceding year.

Annual fees are applicable for each financial year or part thereof. It is therefore not refundable where a security ceases to be traded during a chargeable period. In the financial year of admission, £940 will be charged; thereafter the fees table below will apply.

Annual fees for ETFs and ETPs are based on market capitalisation of the ETF and ETP

Market cap lower band (£)	Market cap upper band (£)	Fee (£)
0	99,999,999	£940
100,000,000	749,999,999	£3,000
750,000,000,	1,499,999,999	£8,000
1,500,000,000		£15,000

Market cap of ETFs and ETPs are calculated as the Net Asset Value (NAV) per share, multiplied by the number of shares outstanding.

Annual fees for ETFs and ETPs can qualify for a discount depending on the number of ETFs and ETPs listed by the issuer, as follows:

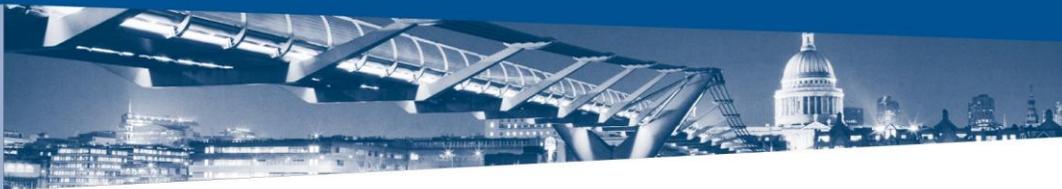

Number of ETFs/ETPs		Discount
From	To	
0	50	0%
51	100	15%
101	-	30%

The discount is calculated on an incremental basis by reference to the number of ETFs and ETPs the issuer has in each band. For example, the discount for an issuer with 200 ETFs/ETPs is calculated as follows:
 $(50 * 0\% + 50 * 15\% + 100 * 30\%) / 200 = 18.75\%$

ETFs and ETPs listed both on the Main Market of the London Stock Exchange and on the ETFplus of Borsa Italiana, as identified by the same ISIN code, will receive a further 7.5% discount on the already discounted amount.

Annual fees are not payable in respect of ETFs admitted to the EOTC (trade reporting only) sector.
